Reading

PROFICIENCY LEVEL DESCRIPTORS

Pre-Emergent

The student at this level has no ability to comprehend text independently read in English. The student may be able to understand universal symbols and graphics associated with text. The student may be able to distinguish between letters and words. The student recognizes that spoken words are represented by written language.

Emergent

The student at this level has a limited ability to comprehend text independently read in English. The student is developing phonemic awareness and decodes words using letter-sound knowledge. The student can read and comprehend text with repetitive, predictable patterns. The student's fluency will impede comprehension.

Basic

The student at this level has the ability to decode and comprehend text independently read in English. The student relies on visuals, organizational features, and contextual clues to comprehend text. The student uses sound/symbol relationships and syllabication rules to decode. The student's fluency may impede comprehension.

Low Intermediate

The student at this level has the ability to comprehend text by reading fluently in English. The student relies on organizational features and contextual clues to comprehend a variety of fiction and nonfiction genres. The student can identify key information and details in text.

Reading

High Intermediate

The student at this level has the ability to comprehend text by reading fluently in English. The student relies on organizational features and contextual clues to comprehend a variety of fiction and nonfiction genres. The student can identify and summarize key information and details in text.

Proficient

The student will demonstrate competency in Reading based on the knowledge, skills, and abilities specified in the Performance Indicators at the High Intermediate level in order to access grade-level academic content.
