

## AzEDS Verification Dashboard

The AzEDS Verification Dashboard is available within the [System Portal](#) for users with the proper [ADEConnect](#) permissions. The data on this dashboard is intended to verify data transmitted to AzEDS. The data are pre-Integrity and pre-ACE. Data coordinators may find this tool useful to verify whether data submitted was received by AzEDS. In order to determine when the data were of sufficient quality for use data coordinators will need to access integrity and verification reports. To access the data verification dashboard select “Dashboard” from the menu at the top of the AzEDS portal.

- 1) Select a **Fiscal Year**
- 2) Make selection for the following:
  - a. **Local Education Agency**
  - b. **School**
  - c. **Record Type**
  - d. **As of Date**
- 3) Click **View Data** to render dashboard

LEA/School	Enrollment Count	ELL Program Participation Count	SPED Program Participation Count	SPED Needs Count
▼ Your School District	995	74	125	170
School 1	454	25	67	104
School 2	541	49	58	66

- 4) The data provided on the dashboard include
  - a. **Enrollment Count:** The number of records in the Student School Association table for the school and as of the date selected. Students may be duplicated in this count.
  - b. **ELL Program Participation Count:** The number of unique students in the Student Program Association table for the ELL program for the school and as of the date selected.
  - c. **SPED Program Participation Count:** The number of unique students in the Student Program Association table for the SPED Program for the school and as of the date selected.
  - d. **SPED Needs Count:** The number of records with special education needs in the Student Need Association table for the school and as of the date selected. An individual student may be counted more than once because a student may have more than one need.
