

Arizona Report of Public Agency Performance on Preschool Transition

Indicator 12: Preschool Transition (In-by-3)

Percent of children referred by Arizona Early Intervention Program (AzEIP) prior to age 3 who were found eligible for Part B preschool services and who had an IEP developed and implemented by their third birthday.

Measurement

The percentage is the number of children found eligible who have an IEP developed and implemented by their third birthdays, divided by [the number of children served in AzEIP and referred, minus the number of children determined not eligible, minus the number of children whose parents refused consent, minus the number of children who were referred to AzEIP less than 90 days before the third birthday], times 100.

Data

The data are from school year 2014-2015. The data are reported by each school district in the Annual Special Education Data Collection.

A school district is listed with an asterisk (*) when the district had fewer than 10 children transition from AzEIP to the district's preschool services prior to age 3. In these instances, the data are not reported to ensure confidentiality.

A school district is listed with a number symbol (#) when the district reported no children transition from AzEIP to the district's preschool services during school year 2014-2015.
