RELEASE NOTES
REST API 2.3

Version 2.3 of the REST API is available for SIS vendors in the Sandbox environment using the following URLs:

https://sandbox-rest-api-r2-3.azeds.azed.gov

https://sandbox-rest-ui-r2-3.azeds.azed.gov

https://sandbox-rest-api-admin-r2-3.azeds.azed.gov

Version 2.3 includes the following changes:

- Added **EndOfCourseAssesmentCodeType** field to courseOfferings resource

- Removed **SPED12** as an option for ReasonExitedDescriptor in specialEducationProgramAssociations resource

- Removed code values **16** (Distance Learning All), **17** (Distance Learning Some), and **19** (Co Taught) as options for EducationEnvironmentType in sections resource

- Removed code values **9** (Distance Learning), **11** (English Language Learner) and **21** (Students with disabilities) as options for CourseLevelCharacteristicType in sectionCourseCharactristic element of sections resource

- Updated security so that tracks and calendarDates resources can be used to get data for any LEA

- Fixed the sandbox environment so that the GetAll and GetByExample does not throw a Unexpected Error (Response code 500) for programs and other resources
