The totals in 1.9.1.1 and 1.9.1.2 will not equal the same amount because they may include duplicate students and our state student information system collects an 'unknown' primary nighttime residence, of which 332 were reported in this reporting period. In addition to this, 124 students were reported having more than one grade during this reporting period. Arizona has also experienced 368 students who have more than one primary nighttime residence and this will be corrected in future reporting.
