Comments: The response is limited to 4,000 characters. We have a few hundred students each year who are reported to us with multiple grade enrollments even within the same LEA. So there is a slight duplication of counts in these figures.

1.9.1.2 Primary Nighttime Residence of Homeless Children and Youth

In the table below, provide the number of homeless children and youth by primary nighttime residence enrolled in public school at any time during the regular school year. The primary nighttime residence should be the student's nighttime residence when he/she was identified as homeless. The totals will be automatically calculated.
