School Level

K-12 Academic Standards
Updated for 2017-2018
Arizona’s Move on When Reading literacy initiative refers to A.R.S §15-701, §15-704, and §15-211. The focus of the program is to improve the foundational literacy achievement of K-3rd grade students through early intervention and prevention of reading difficulties.

This document is intended to provide technical guidance for entering information on the K-3 School Literacy Plan—which will be submitted electronically to the district leader for approval. It is important that the information entered is accurate and complete and that it reflects the current school year’s literacy program for kindergarten through third grade. School literacy plans must be submitted to the LEA approver to be aggregated into a final district plan. All district plans will be reviewed by ADE staff for completion and quality upon submission.

Steps for ADE Connect and MOWR Home Page

1. Log in to ADEConnect and select to enter the MOWR portal.

   *Note: A link to ADEConnect can also be found at www.azed.gov. All user account permissions are managed by the district entity administrator. If you do not have MOWR permissions in ADEConnect, contact your district entity administrator for access. For entity administrator directory, visit https://home.azed.gov/PublicSite/.

2. Verify accurate School Approver level login in upper right corner of screen.

3. Locate heading: ‘My Action Items, Forms Due to District/Charter’ and find ‘Literacy Plan’ box on the left side.

4. Select for the current school year.

Steps for Entering Information in School Literacy Plan

The essential components of the K-3 Literacy Plan are separated by core reading program, intervention program, assessment plan, professional development plan and final requirements. Each of these components is listed on a red tab across the screen. When completing the literacy plan, click on the component tab to open that section and enter information. Once each section is complete, the tabs will change to green and the plan can be submitted to the district/LEA for approval.

All programs listed in either of these databases are evidence-based and are acceptable for this literacy plan. If your current program is not listed in the database, contact the program vendor to request validating evidence (generally through formal studies and research) of the effectiveness of the program.
