Purpose and Use of the
AZELLA Stage V Sample Test

This is the Teacher’s Edition of the AZELLA Stage V Sample Test, which contains the information needed to administer the test. In addition to this document, there are two other documents needed to administer the test – the AZELLA Stage V Sample Test Book and the Stage V Answer Document.

This Sample Test was created to provide educators with a tool to help ninth through twelfth grade students feel comfortable and confident when taking the Stage V AZELLA Spring Reassessment. The samples included in the test book represent various common item types that a student will encounter on the AZELLA Stage V Reassessment Test.

Every year the full range of assessable Performance Indicators (P.I.) from the Stage V English Language Proficiency Standards (ELPS) are eligible for testing on the Stage V Reassessment. Therefore, instruction must continue to include all of the English Language Proficiency Standards and Performance Indicators. This Sample Test does not contain a complete representation of all the item types on the Stage V Reassessment and is not designed to encompass the full range of the Performance Indicators included in the Stage V ELPS.

This Teacher’s Edition provides the directions and scripts needed to administer each section of the test: Listening, Reading, Writing, and Speaking. Also provided in this document are a replica of each item on the Sample Test, the point value associated with each item, the correct response for multiple choice items, and the rubric identifier for extended responses. For extended response items worth multiple points in Writing and Speaking, there is an individualized rubric needed for the scoring of each item. The scoring rubrics are provided at the end of this document. Point values are provided only to offer educators a general sense of the relative value of each of the items. Multiple choice items are worth 1 point each. The highest point value for any item is 4 points, and the lowest point value is .4, which only occurs with the Speaking “repeat” items. **There is no score interpretation provided for this Sample Test.**

The Stage V Sample Test Answer Document is provided to give your students an opportunity to practice recording their answers on an external answer document that is similar to the one used for the Stage V Reassessment. Student responses to both the multiple choice items and the two extended writing responses will be recorded on the
answer document. Test Administrators should monitor students to ensure they are recording their responses in the correct places on the answer document.

The Speaking subtest is designed to be administered one-to-one with students. The *Speaking Response Summary* is found on the last two pages of the Stage V Answer Document. This summary is included to provide Test Administrators with a place to capture student’s oral responses and to record scores. A section for notes is provided for your convenience.

Educators are able to use this Sample Test as it best fits their needs; however, it is recommended that the test be printed, providing students with the format and feel of the Stage V Reassessment. Test books and answer documents can be printed in color or grayscale, single- or double-sided.

To simulate the actual test environment, teachers must insist that students do their own work on this test. Students should be seated so they cannot see each other's work. Creating an appropriate test environment for the Sample Test is another way to assist students to feel comfortable when taking the Stage V Reassessment.

Although the Stage V Reassessment utilizes audio recordings, neither a Listening CD nor a Speaking telephone component are available for the Sample Test. Scripts are provided in this Teacher’s Edition for those purposes. The Test Administrator will read the directions and test items aloud to students whenever a verbal delivery is necessary. Test Administrators should speak clearly and fluently using a normal tone of voice.

There are items on this Sample Test that are the actual sample items from the Stage V test. The remaining items are similar to actual item types, but do not appear on the Stage V Reassessment. For the purpose of administering this Sample Test, it is not advisable to alter the script or items. However, educators will likely want to create their own practice items modeled after these item types for use in the classroom.

AZELLA requires that specific administrative procedures be followed. The scripted directions are formatted to guide you through the test administration and to help ensure proper testing procedures. The Sample Test is designed to parallel the procedures for the Stage IV Reassessment. Please review the directions in advance to become familiar with the scripted text and testing procedures.

Examples of the format for the scripted directions are as follows:

\[ \text{SAY} \quad \text{Read aloud to students only what is marked with “SAY” and printed in bold type.} \]
Listening Section

The Listening section of this test can be administered in a group setting. The Test Administrator will read from the script in this Teacher’s Edition, pausing for the students to record their responses on their answer documents. The Test Administrator will need to monitor students’ work to ensure they are following the directions and responding to the right question on the right page. This section of the Sample Test includes seven (7) multiple choice items – each worth 1 point.

The Stage IV Sample Test items include comprehension skills from the ELPS. These include: distinguishing phonemes, making inferences and drawing conclusions, sequencing events, multi-step directions, and summarizing.

Reading Section

The Reading section of this test can be administered in a group setting. This section includes twenty (20) multiple choice items that are worth 1 point each. Students will independently read the passages, read the test items, and record their responses on the answer document.

The Reading Section of the Stage V Sample Test provides items in each of the three major Reading areas as assessed by the Stage V Reassessment: Print Concepts, Phonemic Awareness/Decoding, and Comprehension. The Sample Reading subtest contains a limited selection of the Reading Comprehension Performance Indicators from the ELPS. The Stage V Reassessment contains a broader selection of items based on the complete set of Comprehension Standards detailed in Reading Standard 4 of the ELPS.

Test results indicate that ELL students struggle with signal words as identified in the ELPS. These include:

- Chronological Order/Sequence - P.I. 4.9; (e.g. first, next, finally, today, now, meanwhile, not long ago)
- Compare/Contrast - P.I. 4.10 (e.g. similarly, on the other hand, however, yet, in spite of)
• Cause/Effect - P.I. 4.11 (e.g. as a result of, consequently, so that, because of, since)

For the Stage V Reassessment, students will be tested using both fiction and non-fiction passages. The Sample Test passages include literature (narrative), expository, persuasive, and functional genres. The Lexile, word count, and sentence length for each passage is included in this Teacher’s Edition.

Items may require students to demonstrate skills in prediction and inference (using illustrations, charts, and graphs), locating facts, asking and answering questions, sequencing events, making connections, summarizing, extracting and interpreting information, identifying author’s purpose, identifying cause and effect, describing characters and setting, identifying the plot, stating main idea, identifying signal words, locating information from a graphic organizer, and following multi-step directions.

These skills should be taught and tested regularly in the classroom. It is important to prepare students for all of the performance indicators included in the Reading English Language Proficiency Standards.

Because they require a verbal response, Oral Reading skills from Reading Standard 2 are tested within the Speaking section of the test.

Once the Reading section of the Sample Test has been completed, students should be provided with a break before continuing on to the Writing section of the test.

Writing Section

The Writing section of this test can be administered in a group setting. This section includes nineteen (19) multiple choice questions, each worth 1 point. Additionally, there are two extended writing items worth 5 points each. Students will read the questions and answer choices independently, recording their responses in the answer document.

Many of the items are structured around the word order rules of phrase and sentence construction, often focusing on the use of verb tenses and subject-verb agreement. It should be noted that the verb tenses specified in Stage V of the Writing domain of the English Language Proficiency Standards (Standard 2; P.I. 6) include: simple, progressive, and perfect forms of present, past, and future tenses.

The multiple choice items include, but are not limited to, a series of questions that ask “Which sentence is correct?” The types of sentences that are presented in the items are declarative, negative, and interrogative.
Another common item type requires students to choose one of the answer choices that would fill in a blank within a sentence. To respond correctly, the student will need to apply various language skills for subject-verb agreement and word order rules.

There are items within the multiple choice section that assess specific paragraph construction skills. These include identifying: a topic statement, smooth and effective transitions, clear sequencing, relevant supporting details, and a conclusion that provides a sense of resolution (Standard 4, P.I. 2). An incomplete paragraph may be provided which is missing a first sentence, a last sentence, a transition statement, or a supporting detail. Students must select a sentence from the answer choices that would best fit the paragraph. For items on this test, students should be aware that a missing first sentence should be a topic statement, and a missing last sentence should be a concluding statement.

The Sample Test includes items that assess Standard English Conventions (Writing Standard 2). These items are heavily influenced by the Language Strand of the ELPS. The Writing Standards together with the Language Strand comprise an extensive set of language skills. Just as with Listening and Reading, an instructional plan built on the Writing Domain and the Language Strand of the ELPS will ensure that students are prepared for the Stage V Reassessment.

Before moving on to the two extended writing items, a break may be provided after students complete the multiple choice questions (item numbers 1 – 19).

Two extended Writing items are included in this test. Although a paragraph is all that is required, it is important to stress the need for strong structural design in the composition of the paragraph. Review the Stage V Writing rubric (III-V.W.5) to ensure students have a complete understanding of what is expected regarding their writing. Each item also includes a checklist for students to guide their writing. Again, it is important to emphasize the need to address each element included in the checklist.

The Sample Test and the Stage V Reassessment call for providing students with blank paper in order to allow for pre-writing activities. This blank sheet of paper will not be scored. Final responses should be written on the Answer Document for scoring. The Stage V Reassessment may address any of the writing application genres included in the ELPS: Narrative, Expository, Functional, or Persuasive (Standard 1).
Item number 20 can be found on page 30 and item number 21 can be found on page 31. Each of these two items requires the writing of a single paragraph. The scoring rubric for these items begins on page 59 of this Teacher’s Edition.

**Speaking Section**

The Speaking subtest is individually administered to each student. Using the script in this Teacher’s Edition, the Test Administrator will ask the student a series of questions for which the student will need to respond. A two-page Speaking Response Summary, useful for recording the scores of student responses, is included on pages 5 and 6 of the answer document. Scores should be assigned based on the designated rubrics.

The Speaking section of this Sample Test includes twenty-one (21) items: two (2) unscored practice items, nine (9) extended responses worth 4 points each, and ten (10) repeat items worth .4 points each. The scoring rubrics for Speaking items begin on page 61 of this Teacher’s Edition.

Speaking items numbers one (1) and two (2) on the Sample Test are actual unscored practice items from the Reassessment Test. These items are the first two questions students will hear when they begin the telephone administration of the Stage V Reassessment Speaking test. Responses to the first two questions must be sufficiently audible in order for the telephone-administered Speaking subtest to continue.

There are several item types that students need to be aware of and practice:

- Students may struggle with two-part Speaking items that ask an initial question, then after the student responds, asks a second follow-up question. Examples of this item type are as follows:
  - Look at the picture and ask me a question. *(Pause for response.)* Ask me another question. *(Pause for a second response.)*
  - Look at the pictures. Tell me how they are alike. *(Pause for response.)* Tell me they are different. *(Pause for a second response.)*

- It is possible that a “why” or “how” question could be the second follow-up question.

- Students may be required to interpret information or make a prediction based on a graphic stimulus.
• Students may be asked to provide directions using a map.

• A Speaking test item may include the instruction to “Please answer in two or more complete sentences.” Since it is built into the scoring rubric, it is essential that the student provide two or more complete sentences when that requirement is stated.

• For the repeat items (items 12 through 21), the student must only repeat what is heard and not answer any of the repeat items that are questions.

Estimated Sample Test Administration Times

Since the Sample Test is structured differently than the Stage V Reassessment, the estimated Stage V Sample Test administration times are as follows:

<table>
<thead>
<tr>
<th>Domain</th>
<th>Estimated time</th>

The students respond to each question by filling in the circle in the correct location on their answer documents. During the Listening section, students may be allowed to take notes in the test book, but not on the answer document. Distribute the test books and the answer documents.

Make sure each student has a test book, answer document, and two graphite-based (No. 2) pencils with erasers. Be sure that all desks are cleared of books and other materials not needed for the test.

*SAy* Today, you will be taking the Stage V Sample Test. This test will measure your English language proficiency. This test has four parts: Listening, Reading, Writing, and Speaking.

Do not open your test book until I tell you to do so. You must remain silent until the conclusion of the testing session. All answers must be written in the AZELLA Answer Document. Electronic devices, such as cell phones and personal music players, are not permitted during the entire testing session.

*H*old up an AZELLA Answer Document. *P*oint to the Student’s Name line on the front cover.

*SAy* Find the Student’s Name line on the front cover of your answer document. Write your full name on this line.

Confirm that every student has written his/her name in the proper location on the answer document.

*SAy* Now, we will begin the Listening portion of the test. Talking during the Listening portion of the test is not allowed. You may take notes in your test book as you listen to the passages and the questions.
You will respond to each question by filling in the answer choice on your answer document. To answer a multiple-choice question, fill in the circle that corresponds to the answer you choose. Be sure to fill in the circles completely and make your mark heavy and dark. Make sure that when you mark your answer, the test question number is the same as the number on your answer document. If you want to change an answer, completely erase the mark you made before making a new mark.

Open your test book to page 3 and your answer document to page 2. Locate the Listening section.

Ensure that all students are on the correct page of the test book and answer document.

SAY This is the Listening section. Find the Listening section on the answer document.

Look at the top of page 3. Read the directions to yourself as I read them aloud.

Listen to the discussion on Predator-Prey Relationships to answer the question.

**Speaker 1 (Predator discussant)**
**SAY**  “All animals must eat to survive. Predators are always on the lookout for a meal. A predator is an organism that hunts and eats another organism. Some examples of predators are lions, bears, and foxes. The prey is part of the predator's environment, and the predator dies if it does not get food. Therefore, it is necessary for predators to develop speed, the ability to hide, and a good sense of smell, sight, or hearing. For instance, the fastest lions are able to catch food and eat, so they survive and reproduce.”
Speaker 2 (Prey discussant)

SAY “The prey is the organism which the predator eats. Some examples of prey are fish, zebras, and rabbits. Prey must constantly avoid being eaten. Likewise, the predator is part of the prey’s environment. Some animals never venture too far from their homes in underground dens or thick vegetation and can quickly hide when danger approaches. The Prey must be able to outrun, hide from, and avoid predators. For instance, the fastest zebras are able to escape the lions, so they survive and reproduce. An important thing to realize is that as both organisms become faster to adapt to their environments, their relationship remains the same. This is true in all predator-prey relationships.”

Now listen to the discussion again to answer the question. What is the relationship between predators and prey?

“Build a Kaleidoscope” – Passage for items #12 -15.

- Lexile Measure: 1170 L
- Mean Sentence Length: 17.95
- Word Count: 395

DIRECTIONS
Read the passage and answer questions 12 through 15. Fill in the correct circle on your answer document for each question.

Build a Kaleidoscope

Kaleidoscopes use mirrors and reflections to create spectacular images for the eyes! A Scottish scientist, Sir David Brewster, invented the kaleidoscope in 1816. He combined the Greek words kalos, meaning “beautiful”; eldos, meaning “fear”; and scopos, meaning “watcher.” His kaleidoscope tube used mirrors set at different angles. They reflected bits of colored glass and objects that formed patterns when viewed through one end. Follow these instructions to build your own kaleidoscope.

Materials

- Potato chip can with plastic lid
- Hammer and large nail
- Glue
- 8 x 10 -inch sheet of black construction paper
- Heavy piece of 8 x 10 – inch card stock
- 8 x 10-inch plastic transparency
- Masking tape
- Plastic wrap
- Sequins and glitter

Construction

1. **Punch the Hole** – Carefully punch a hole in the center of the metal end of the can using the hammer and nail. You will use this opening to look into your kaleidoscope, so make sure there are no sharp edges on the outside after you punch the hole.

2. **Build the Mirror** – Glue the black construction paper to the card stock. Glue the plastic transparency on top of the black paper. This is the mirror for your kaleidoscope.

3. **Insert the Mirror** – Place your mirror in front of you with the shiny side facing up and the long edges to the left and right. Fold the mirror lengthwise so that the right and the left edges meet in the center.
Now fold the mirror lengthwise again, this time on the center line. Gently unfold the mirror and overlap the two outer edges to form a triangular-shaped tube. Secure the tube by taping around the outside. Carefully insert the triangular tube inside your can.

4. **Stretch the plastic wrap** — Gently stretch the plastic wrap over the open end of your can. Secure it by wrapping masking tape around the end of the can.

5. **Insert Sparkles** — Stand the can on end with the metal end down. Place several pinches of sequins and glitter on top of the wrap. Do not overcrowd the area — it is essential that the sequins and glitter have room to shift into new patterns.

6. **Add the Lid** — Snap the plastic lid over the sequins. It will hold them in place and still allow room for them to shift. Now look through the opening of your kaleidoscope and rotate the tube to create new images and patterns.

“A Part of the Whole” – Passage for items #16 -20.

- **Lexile Measure: 930L**
- **Mean Sentence Length: 15.26**
- **Word Count: 412**

**A Part of the Whole**

Ahmose stood with his uncle and gazed up at the pyramid towering before them. It rose out of the desert like a majestic mountain. Thousands of huge stones were stacked one on top of another, and an earthen ramp hugged the pyramid like a sturdy arm. Ahmose had travelled from his home village far away and he was excited to be so close to the pyramid.

At the base of the pyramid was a small city of tents. People crowded in the open spaces, and their voices mixed with the braying of camels. Thin wisps of smoke swirled over the low walls of bakeries, and Ahmose could smell freshly baked bread. He was so caught up in the sights and sounds that he didn’t realize his uncle was talking to him until the older man touched him on the arm.

“Now it’s time to find our tent,” Ahmose’s uncle said. Ahmose grinned at his uncle. This was the day he had been anticipating his whole life - the day when he would have the chance to help build the pyramid. Now as he and his uncle made their way through the maze of tents, Ahmose could hardly believe he was actually here.
The next morning, Ahmose and his uncle rose before the sunrise and went to the bakery. Ahmose's uncle lit the ovens, and Ahmose stirred bread dough. Ahmose helped his uncle bake loaf after loaf while the pyramid loomed over them. Soon, hordes of workers lined up for breakfast. Ahmose would just finish baking one loaf and handing it out when more workers would appear, their hands outstretched.

As Ahmose worked through the morning, he began to realize that his job was to bake bread for the builders, not to build a pyramid. His disappointment was very strong. Ahmose heard one of the builders say to his uncle, "If we had to suffer through one more day of the other bakers' bread, we were going to quit." The other workers agreed, and Ahmose's uncle laughed.

"It looks like you have a new helper," said another worker.

"This is my nephew, Ahmose." The boy could hear the pride in his uncle's voice.

"Well, if he's half as good as you, then we'll all get this pyramid built, one loaf of bread at a time," laughed the man.

Ahmose looked at the huge structure rising above him. For the first time, he realized that the pyramid was made of much more than just stones.

Monitor students’ progress on the Reading subtest until all students have completed question 20.

SAY We have finished the Reading activity.

Provide students with a break before continuing on to Writing.
The Writing Domain is administered in two portions. The first portion of the test is a series of multiple-choice questions, and the second portion has two open-ended writing prompts.

Please have two sheets of blank or lined scratch paper available for each student. This scratch paper should be distributed before students begin the open-ended writing prompts – numbers 20 and 21 – for the second portion of the Writing test. The student response for number 20 will be written on page 3 and the response for number 21 on page 4. The scratch paper will not be scored. During the Writing session, students may be allowed to take notes in the test book, but not on the answer document.

**SAY** The Writing session is administered in two parts. The first part of the test is a series of multiple-choice questions, and the second part has two open-ended writing prompts.

Now, we will begin the Writing portion of the test. Talking during the Writing portion of the test is not allowed. If it helps you to select your answer choice, you may write in your test book.

Turn to page 19 of the test book. Now open your answer document to page 2. Locate the Writing section.

Verify that all students have their test books and answer documents open to the correct pages.

**SAY** Find the directions at the top of the page of the test book.

- An idea and details or characters and setting as appropriate.
- Minimal errors in grammar (including syntax) and usage that do not impede communication.
- Infrequent errors in capitalization and punctuation do not impede communication.
- Infrequent and/or minor spelling errors that do not impede the reader’s comprehension.
- An organization that incorporates transitional words to guide the reader through the text, from beginning to end.
- Words and phrases that address the topic and audience using academic language although inconsistencies are noted.
- Evidence of connection to the prompt/question, stated or implied.

**Score 3:** Main idea is present; few details are evident although some are general. Writing includes errors in Standard English conventions which impede communication. There is a hint of sentence variation, but attempts are often unsuccessful. Vocabulary is limited. A score point 3 will include:

- Main idea present; details randomly placed; simplistically stated character(s) and/or setting as appropriate.
- Errors in grammar (including syntax) and usage that begin to confuse the reader.
- Frequent errors in capitalization and punctuation that begin to impede communication.

Stage V Sample Test Teacher’s Edition
- Frequent spelling errors that begin to impede reader’s comprehension.
- Organization difficult to follow; transitions often missing; beginning and/or ending that may be missing.
- Repetitive use of words and phrases.
- Some evidence of connection to the prompt/question stated or implied.

**Score 2:** Main idea is discernible; details are not always tied to an idea and are sometimes off topic. Errors in Standard English conventions impede communication. Sentences are often incomplete or are simplistic in structure. Vocabulary is limited and repetitive. A score point 2 will include:

- Ideas vague and/or simplistic; details sometimes unrelated; if appropriate, characters and/or setting not identified, although a name may be mentioned.
- Errors in grammar (including syntax) and usage that impede communication.
- Beginning capitalization and end punctuation are often incorrect. Internal punctuation not correct if used.
- Spelling errors that impede reader’s comprehension.
- Organization non-existent; no cohesiveness among the sentences; beginning and ending missing.
- Repetitive and/or incorrect words and phrases.

**Score 1:** No main idea is present; there is only a list of English words and phrases with no connection to one another. The use of Standard English conventions is not evident. Sentences are incomplete or are random words strung together. Vocabulary is the repetition of a few words that offer no cohesive meaning. A score point 1 will include:

- Absence of ideas; if appropriate, characters and/or setting not identified, although a name may be mentioned.
- Errors in grammar (including syntax) and usage that impede communication.
- No consistent evidence of capitalization and punctuation.
- Spelling errors that impede the reader’s comprehension.
- Organization non-existent; no cohesiveness among the words and phrases; beginning and ending missing.

**Score 0:** This score point is applied in any of the following conditions:

- Blank page
- Language other than English
- Off-topic response
- Restatement or copying of the prompt
- Illegible or unintelligible response
- Evidence of teacher interference or student cheating
Rubric interpretation: The AZELLA 4 Point Speaking Rubric is a scoring tool that measures correct oral English responses to given stimuli in two or more sentences. The items in Stages II, III, IV, and V assess students’ ability to orally respond to stimuli using correct grammar and understandable English. The rubric is defined by score points 0-4. Students who correctly respond to two separate questions using correct English grammar and intelligible English earn a score point 4. Some items will ask a student to respond in two or more interrogative sentences.

Score 4: Student formulates a response in correct understandable English using two or more sentences based on given stimuli.

- Student responds in complete declarative or interrogative sentences.
- Grammar (including syntax) errors are not evident and do not impede communication.
- Student responds with clear and correct pronunciation.
- Student responds using correct syntax.

Score 3: Student formulates a response in understandable English using two or more sentences based on a given stimuli.

- Student responds in complete declarative or interrogative sentences.
- Sentences have minor grammatical (including syntax) errors.
- Student responds with clear and correct pronunciation.

Score 2: Student formulates an intelligible English response based on given stimuli.

- Student does not respond in two complete declarative or interrogative sentences.
- Student responds with errors in grammar (including syntax).
- Student attempts to respond with clear and correct pronunciation.

Score 1: Student formulates erroneous responses based on given stimuli.

- Student does not respond in complete declarative or interrogative sentences.
- Student responds with significant errors in grammar (including syntax).
- Student does not respond with clear and correct pronunciation.

Score 0:

- Student formulates responses in non-English.
- Student does not respond.
Scoring Repeat Items

Use for items #12 through #21

At every Stage the AZELLA includes 10 repeat items. Educators are encouraged to practice repeat item types with students so that they are familiar with this format and can respond comfortably when encountering these items on the actual test.

The ten repeat items as a whole count for 4 points of the actual Speaking test of the Stage V Reassessment. Although each individual item is only worth .4 point, the electronic scoring engine used for the AZELLA Spring Reassessment is trained to measure multiple characteristics of the student’s oral response.

There are three general characteristics that the Speaking “Repeat” items are scored on: accuracy, fluency, and pronunciation. For the purpose of scoring AZELLA Sample Test “Repeat” items, the following definitions for Fluency and Pronunciation are provided.

Fluency: Smooth, rapid speaking evidenced by appropriate rhythm, phrasing, pausing, and word emphasis in continuous speech.

Pronunciation: Accurate pronunciation as evidenced by the ability to produce consonants and vowels, applying stress clearly and accurately in sentence context, and utilizing accurate phonological forms (phonemes and lexical stress) in everyday words.
