Program Assessment/Early Childhood Quality Improvement Practices Process (ECQUIP)

Overview

ECQUIP was developed by the Early Childhood Education (ECE) Section as a continuous improvement process to ensure quality and accountability among schools within an Early Childhood Program receiving state funding through the ECE Section of the Arizona Department of Education (ADE). The best part about the ECQUIP is that it provides you a process to bring early care and education providers and stakeholders together to break down silos, improve communication and align quality goals. Nationally and in Arizona the Early Care and Education system is fragmented. ECQUIP continues to be a vehicle for all early childhood programs to partner and build quality preschool for all Arizona’s young children. Begin to think of all the programs within a local education agency as ONE early childhood system. Work with other ECE programs within your community to further create systems that benefit children who will be entering public education. It is also critical that the ECQUIP team creates a local ECE system that is easily understood by families.

Each team sets goals and develops an ECQUIP Quality Enhancement Plan annually. The Quality Enhancement Plan should tie in with district-wide continuous improvement processes, building strong foundations to address Move on When Reading Legislation and the Arizona’s College and Career Ready Standards and tie into overall improvement of the early childhood program. The activities of the ECQUIP team will help to gain the attention of school administration and help solidify the strong foundation ECE provides to a child’s educational success!
THE ECQUIP PROCESS

There are two parts to the ECQUIP Process:

1. Conducting an annual self-assessment of the early childhood program (see Steps on page 3) using the ECQUIP Rubric to determine goals and create a Quality Enhancement Plan and,

2. Preparing for an ECQUIP validation visit made by ADE at least every six years.

ECQUIP is intended to be used as a guide for programs when planning for continuous quality improvement. It provides programs with a framework for implementing quality practices. Although ADE outlines guidance for conducting an ECQUIP process, the design of each program's ECQUIP self-assessment is left to the local administration, based on local needs.

Quick Suggestions for Successful ECQUIP Teams

1. Schedule meetings for the school-year in advance to ensure the best attendance possible.
2. Consider expanding your team: Does it include Preschool Development Grant Partners, Head Start, Community Childcare, local childcare partners, families, a business partner, First Things First staff, Title I preschool, local Read On partners, kindergarten teachers?
3. Score your program using the Standards and Rubrics for Program Assessment to assist in identifying strengths and opportunities. Use the built-in time during ECQUIP meetings for collaboration, communication, goal setting, and review of data.
4. Instrument choice should target specific needs based on areas in need of improvement identified in the ECQUIP rubric (see Step 3 ~ Choose a Tool).
5. Choose specific improvement activities and document on your Quality Enhancement Plan.
6. Work your plan.
7. During the Spring, re-administer your program assessment tool(s) and the ECQUIP Rubric.
8. Celebrate accomplishments and determine goals for the next school year.
Programs Required to Participate in ECQUIP
ECQUIP is required for programs receiving any of the following:
- Title I Preschool
- Early Childhood Special Education (ECSE)
- Preschool Development Grant Programs (PDG)

ECQUIP Standards
ECQUIP has five standards:

**Standard 1: School and District Leadership** – helping leaders to support improved student achievement

**Standard 2: Curriculum, Instruction, and Professional Development** – promoting rigorous curriculum, effective instruction and instructional support

**Standard 3: Classroom and School Assessments** – using data to improve classrooms, supportive programs, and school practices, as well as child outcomes

**Standard 4: School Culture, Climate and Communication** - developing schools as learning communities for students, teachers and parents

**Standard 5: Fiscal Review** – monitoring funding activities
PART 1: The Self-Assessment Process

Step 1 ~ Assemble Team
The first step in the ECQUIP process is to convene an early childhood education team. Each local education agency determines locally who is to participate on the ECQUIP team. At the minimum, a team should consist of administrative members (Early Childhood Special Education, Preschool Development Grant, Title I preschool representative, principal, coordinators, etc.); Instructional members (preschool, kindergarten, first through third grade, Reading First coach and librarians) and Community Partners (Head Start, local childcare provider, district community education, business partner, tribal partner, community representative, parents, PDG partners, local Read On partners). Together, the team works to design a self-assessment process that meets the needs of the program as a whole.

Step 2 ~ Choose Standard(s) for Improvement
Complete a self-assessment using the ECQUIP Standards and Rubrics document. Identify strengths and needs for each standard and identify activities for improvement for each standard. Quality Indicators are included with each standard to assist teams in identifying program needs and areas for improvement (see ECQUIP Standard, Rubric and Evaluation form).

Step 3 ~ Choose a Tool
Once the team has determined the target standard(s) for improvement, ADE strongly recommends that the group augment the existing information related to the standard with data obtained from tools designed specifically for program and organizational assessment purposes. While not required, these can provide invaluable information for the team’s quality improvement efforts. Each of the suggested tools aligns with the Program Guidelines for High Quality Early Education: Birth through Kindergarten and has research documenting their reliability and validity.

For example, if a team determines that it wants to plan for improvements in classroom environments, the team may choose to use the ECERS-R tool in the assessment process as it relates to Standard 4.
ADE suggested tools for assessing program quality include the following:

Standard 1: School and District Leadership

- PQA (Preschool Program Quality Assessment)
- PAS (Program Administration Scales)

Standard 2: Curriculum, Instruction and Professional Development

- Arnett Caregiver Scales
- Classroom Assessment Scoring System (CLASS)*
- STARE (Scale for Teachers' Assessment of Routines Engagement)
- WestEd T4S (Teach For Success)

Standard 3: Classroom and School Assessment and

- Teaching Strategies GOLD Aggregated Reports

Standard 4: School Culture, Climate and Communication

- APEEC (Assessment of Practices in Early Elementary Classrooms)
- Council on Exceptional Children/Division for Early Childhood Recommended Practices
- ECERS-R (Early Childhood Environmental Rating Scales-Revised)*
- ECERS-E (Early Childhood Environment Rating Scales-Extension)
- ELLCO Pre-K (Early Language and Literacy Classroom Observation)
- ELLCO K-3 (Early Language and Literacy Classroom Observation)
- PQA (Preschool Program Quality Assessment)**
- Ready School Assessment**

Standard 5: Fiscal Review

- Early Childhood Education fiscal monitoring protocol

* Indicates a Quality First tool
**Also has an administrative practices assessment domain specific
**Step 4 ~ Provide Training**  
Each member of the ECQUIP Team and other related personnel should have the opportunity to receive training and information about the tool chosen and its utilization. Staff who are being evaluated should have access to the tools being used.

**Step 5 ~ Administer Tool(s)**  
Each team determines the breadth and depth of administration of the self-assessment tools in order to gather data useful to the team.

**Step 6 ~ Review area identified for improvement**  
Based on the results of the self-assessment ECQUIP Rubric or a formal assessment tool, the team makes decisions related to the program's needs and determines future direction of improvement process.

**Step 7 ~ Determine strategies for improvement and create a Quality Enhancement Plan**  
Using the information gathered, complete a Quality Enhancement Plan and submit to ADE through the ALEAT system. The intent of the Quality Enhancement Plan is to assist ECQUIP teams with their long range planning for continuous quality improvement.

The ECQUIP process is meant to be an ongoing quality improvement process, where local education agencies determine in the spring semester, an area in which early childhood programs could enhance current practices or processes and decide how they plan to focus their efforts and resources for the following year.

**Step 8 ~ Report results to administration and to ADE through the ALEAT System**  
Each district/charter reports improvements generated through their ECQUIP process annually on a Quality Enhancement Plan via the ALEAT. Funding distributions on Grants should be reflective of goals identified by the ECQUIP team.

Scores and data gathered from the instruments chosen or used for self-assessment are intended for Local Education Agency and school use only and are NOT submitted to ADE/ECE.
PART 2: Preparing for ECQUIP Validation by Arizona Department of Education

You will be contacted by an Early Childhood Specialist to schedule the ECQUIP validation visit and answer any questions you may have.

The second part of the ECQUIP process is conducted by ADE/ECE staff validation visits every six years. ADE/ECE staff will conduct a desk review or validation visit. The validation visit will consist of ECE staff meeting with members of your ECQUIP team and:

• reviewing documentation of ECQUIP meetings (agendas, minutes and sign-in sheets);
• reviewing and discussing your ECQUIP team’s scored rubric (note Suggested Evidence items to gather as you score the rubric); and
• current ECQUIP Quality Enhancement Plan

Forms for Validation Visits

• ECQUIP Standard, Rubric and Evaluation Record
• ECQUIP Quality Enhancement Plan
• Early Childhood Special Education Technical Assistance Template

QUESTIONS
If you have questions about the Program Assessment/ECQUIP process, please do not hesitate to contact an Early Childhood Specialist.

Nicol Russell, Deputy Associate Superintendent
HOW TO USE THE ECQUIP STANDARDS AND RUBRICS

This instrument is intended to help schools and districts at all levels of performance assess the strengths and targeted areas for improvement of their instructional practices and organizational conditions. It serves three primary functions:

1. as a blueprint to communicate the high expectations expected from Early Childhood classrooms throughout the state
2. as an internal self-assessment tool to be used by the ECQUIP team at the local level
3. as an external assessment tool to be used by ADE Early Childhood Unit during monitoring visits

This instrument is not intended to be used for staff evaluation or child data collection. Instead, the focus is on assessing the effectiveness of the Early Childhood program(s). The tool can be used as a stand-alone tool, or may be used in support of one of the tools recommended by ADE designed specifically for program and organizational assessment purposes. Each of the suggested tools aligns with the Program Guidelines for High Quality Early Education: Birth Through Kindergarten and has research documenting their reliability and validity. Based on the results of the formal assessment, the team makes decisions related to the program’s needs and determines future direction of improvement process.

Using the information gathered from the self-assessment process, the team will complete an ECQUIP Quality Enhancement Plan. The intent of the Quality Enhancement Plan is to assist ECQUIP teams with their long range planning.
KEY TO READING AND UNDERSTANDING

**Standard**  a goal statement that identifies a desired performance; represents the essential knowledge, skills, behaviors, and attitudes that must be demonstrated in order to be successful with a particular performance

**Rubric**  an established set of parameters used for evaluating performance standards; typically consists of a set of explicit criteria (indicators) that define the desired performance, a fixed measurement scale (e.g., a 4-point scale) and performance descriptions for each criterion (indicator) at each point on the scale

**Indicator**  an observable measure that clearly articulates one of the elements of the desired performance standard; one criterion that makes up a performance standard

**Performance Levels**  a fixed measurement scale with detailed descriptions for each point on the scale to aid in distinguishing and/or discriminating performances of different quality

**Suggested Evidence**  data and other kinds of compelling documentation that can be collected and used to substantiate a specific rating on a rubric
STANDARD 1 AT- A- GLANCE

Standard 1: SCHOOL AND DISTRICT LEADERSHIP
Leadership focuses on improved student achievement supported by the ECQUIP process to assess the effectiveness of program management practices as the basis for improvement.

Indicators

1.1 Leadership has led an inclusive process of developing a sustained and shared vision and mission as well as a written philosophy that is the basis for program planning, implementation, evaluation and modification.

1.2 The Leadership meets regularly with the early education staff to formulate, review, or revise the ECQUIP process/plan.

1.3 Leadership promotes and sustains continuous school improvement by providing organizational structure, allocating funding, monitoring the use of resources (e.g., fiscal, professional development, planning time).

1.4 Leadership ensures systems are in place to monitor the integrity and accuracy of child assessment data collected and reported by the program.

1.5 Leadership provides and supports professional development opportunities for early education program staff to strengthen their competencies in planning and implementing appropriate and effective educational programs for young children. Staff are committed to long-term professional growth that is continuous and job-embedded.
STANDARD 2 AT- A- GLANCE

Standard 2: CURRICULUM, INSTRUCTION, AND PROFESSIONAL DEVELOPMENT

The program uses the ECQUIP process to assess the quality of curriculum, instruction and professional development that leads to meeting the Infant Toddler Developmental Guidelines, Arizona Early Learning Standards (Preschool), and Arizona College and Career Ready Standards (K-3).

Indicators

2.1 Curriculum, instruction and professional development align with the Infant Toddler Developmental Guidelines, the Arizona Early Learning Standards (Preschool) or the Arizona College and Career Ready Standards (K-3).

2.2 An ongoing process is in place for monitoring and evaluating curriculum, instruction and professional development, and the results are communicated to all stakeholders and used to acknowledge the program’s strengths and address challenges.

2.3 Related technology, instructional materials, and resources are integrated effectively into classroom instruction and used as a teacher productivity tool.

2.4 Curriculum includes daily opportunities to learn through a balance of child initiated and teacher directed experiences that match the needs, interests and developmental levels of all children.

2.5 The early childhood environment is valued as an integral part of the curriculum that facilitates child independence, interactions, and learning.

2.6 The district has a LEA Literacy Leadership Team and K-3 Literacy Plan that has been submitted to the State Board of Education.
STANDARD 3 AT- A- GLANCE

Standard 3: CLASSROOM AND SCHOOL ASSESSMENTS
The program uses multiple standards-based assessments, strategies, and data to measure and monitor child progress in an ongoing manner. Data collected is used to guide instruction, determine individual needs of children, and assess program effectiveness.

Indicators

3.1 Children’s growth in all developmental and standard content areas is assessed in an ongoing and authentic manner, to modify curriculum and individual instruction, and to identify children’s needs and/or make appropriate referrals.

3.2 Teachers communicate the results of individual child assessments regularly with families and other stakeholders.
STANDARD 4 AT- A- GLANCE

Standard 4: SCHOOL CULTURE, CLIMATE, AND COMMUNICATION
The program functions as an effective learning community and possesses an ongoing communication system supported by the ECQUIP process to assess the adequacy of facilities and to make decisions regarding school culture, climate and communication.

Indicators

4.1 A safe and orderly environment ensures that children’s health and safety are a priority throughout each program day.

4.2 Program personnel build positive nurturing relationships with children and parents, and work to improve inclusive practices, and parent and community involvement.

4.3 Children and program personnel are valued, and their work is recognized and acknowledged.

4.4 Anti-bias practices are evident which celebrate and are inclusive of linguistic, multicultural, and individual abilities within the school community.
STANDARD 5 AT- A- GLANCE

Standard 5: Fiscal Review
The program monitors activities to ensure funding is used for authorized purposes, in compliance with federal statutes, regulations, and the terms and conditions of the award.

Indicators

5.1 The program ensures that expenditures are necessary and reasonable for the performance of the program.

5.2 The program maintains records for equipment purchased with federal funds, and a physical inventory is conducted at least every two years.

5.3 The program maintains records of payments supported by a complete and accurate record of employee time and effort.

3.2 Teachers communicate the results of individual child assessments regularly with families and other stakeholders.

*Program Personnel are responsive to parent’s requests for information related to their child’s progress
*Program Personnel meet with families to discuss information about the Arizona Early Learning Standards or Arizona College and Career Ready Standards
*Program Personnel meet at least every 90 days to review child assessment data

*Results of assessments are shared with parents in a non-technical manner
*Program Personnel meet with families at a minimum two times a year to review child assessment data
*Information provided to families includes both children strengths and deficits and identifies instructional needs
*Families have adequate time to review reports, ask questions, or express concerns
*Program Personnel regularly enter Child Assessment data into Teaching Strategies GOLD online and finalize ratings by the assigned checkpoint dates.

*Program Personnel meet with families one time a year to review child assessment data
*Program Personnel do not meet with families to share information about child progress or review child assessment data

*Interview Program Personnel
*Review documentation of referrals (if applicable)
*Review team meeting notes (if applicable)
*Review parent conference notes or agenda (if applicable)
*Review teacher communication log or daily progress report (if applicable)
*Review weekly classroom newsletter (if applicable)
*Review student progress reports
