Welcome to the Arizona Migrant Education Program!

The Arizona Migrant Education Program (MEP) is a state operated program which was reauthorized under the *Every Student Succeeds Act (ESSA)* Title I Part C.

This program provides services to students of Migratory Workers from the ages of three through twenty-one, and provides funding and support to Local Educational Agencies (LEAs). The LEAs are required to provide the structure, support, and scope of available services to Migratory students to ensure their achievement of higher academic standards and graduation from high school.

Agriculture in the State of Arizona is a 10.3 billion dollar industry. Our state is the winter lettuce capital of the world, producing ninety percent of the nation's leafy vegetables. We are ranked second nationally in the production of lemons, and third in tangerine production (Arizona Farm Bureau). There are over 10,000 children of Migratory Workers with educational needs in Arizona.

There are a wide range of services provided during and after school hours. For example: adult education, family outreach, in-home support services, language and cultural training, STEM/STEAM programs, Out-of-School Youth intervention, preschool programming, student leadership opportunities, summer and extended day programming.

Our primary focus is the identification and recruitment of Migratory students, and ensuring that its supplemental programs and advocacy align with the state's efforts to transition to the rigorous research-based reforms set forth by the Arizona Department of Education.

The MEP Staff would like to welcome you to the program! Please contact us if you have any questions, or if we can be of service.

Sincerely,

Your Arizona MEP Team
