Questions on Structure

ADE Directive for the Social Studies Standards

- Arizona standards, written for Arizona teachers and students, by Arizona educators and content experts
- Write grade-level standards and not performance objectives

Standards, Curriculum, & Instruction

Standards – What a student needs to know, understand, and be able to do by the end of each grade. Standards build across grade levels in a progression of increasing understanding and through a range of cognitive demand levels. Standards are adopted at the state level by the State Board of Education.

Standards, Curriculum, & Instruction

Curriculum – The resources used for teaching and learning the standards. Curricula are adopted at a local level by districts and schools.

Instruction – The methods used by teachers to teach the standards. Instructional techniques are employed by individual teachers in response to the needs of the students in their classes to help them progress through the curriculum in order to master the standards.

Standards versus Performance Objectives

Content Standards

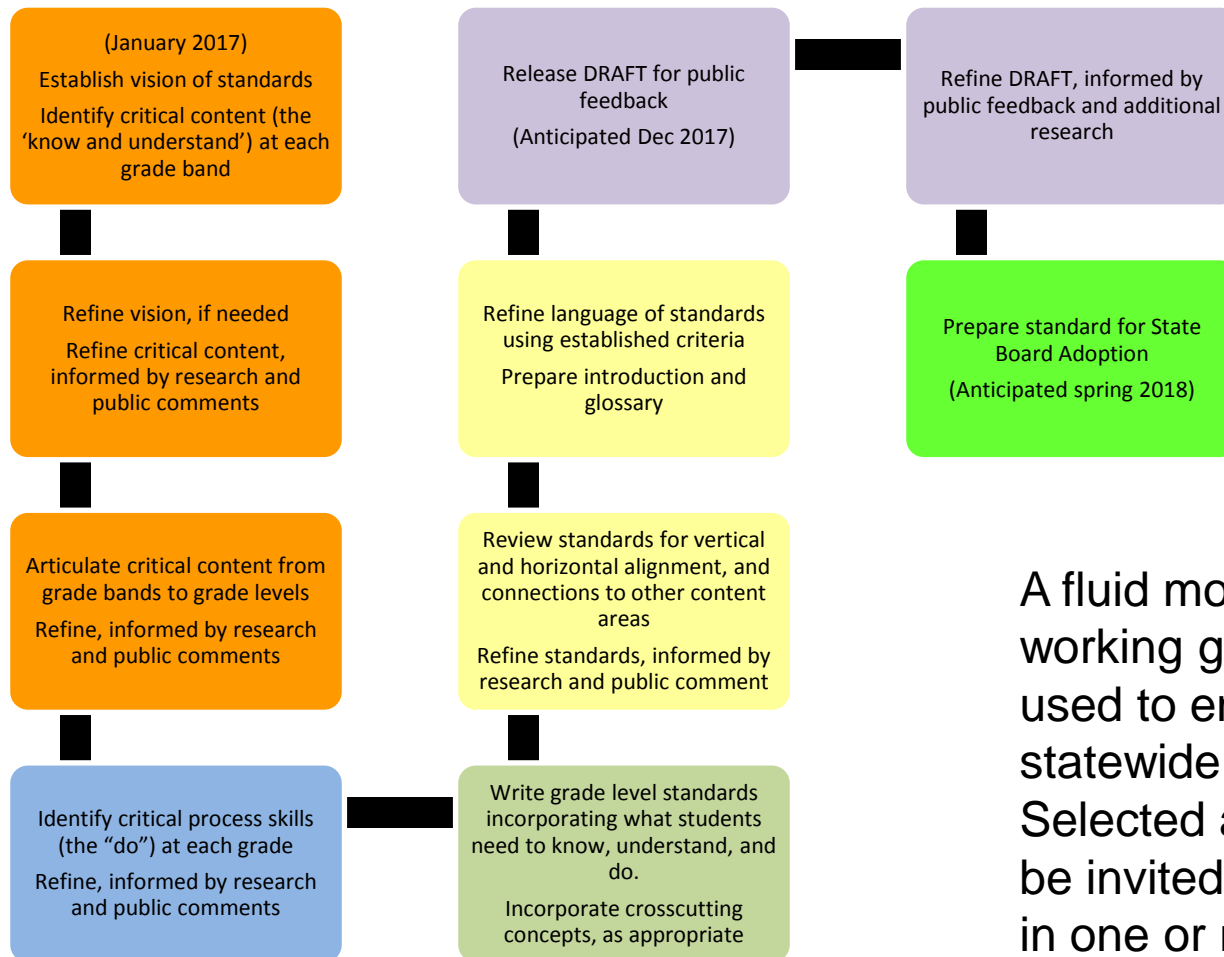

Standards are what students need to know, understand, and be able to do **by** the end of each grade level. Standards build across grade levels in a progression of increasing understanding and through a range of cognitive demand levels.

Performance Objectives

Performance Objectives are **incremental steps** toward mastery of individual content standards. Performance Objectives are knowledge and skills that a student must demonstrate at each grade level. Performance objectives do not imply a progression of learning and, because they are discrete skills, reach a limited level of cognitive demand.

Culturally Inclusive Practices

Diane Douglas

Superintendent of Public Instruction

Guidelines for Local Educational Agencies

March 30, 2017

Tammy Waller

Charge to the Committee

In 2015, Arizona Superintendent of Public Instruction, Diane Douglas, formed the Culturally Inclusive Practices Committee because she recognized that our students did not have equitable access to rich educational opportunities and issued this charge:

*Develop culturally inclusive guidelines
which are subsequently adopted by
each local educational agency.*

This dedicated committee, comprised of educators and community members, carried out this charge to develop the guidance which can be easily implemented.

Culturally Inclusive Practices: Implementation Guidelines

Curriculum

Every Local Educational Agency (LEA) should teach a balanced curriculum adhering to State adopted standards and mandates for the content areas, using complementary materials that address the contributions of diverse cultures.

To what extent does the curriculum...

- Reflect **students' experiences** and the communities in which they live?
- Include **multiple voices and perspectives**:
 - What they have been,
 - What they are, and
 - What they could be?
- Address the **contributions of diverse cultures**?
- Prepare students for **success in college, career and community**?
