FOURTH GRADE - REGIONS AND CULTURES OF THE AMERICAS

prehistoric Americas to European settlements (up to 1763)

Students understand the geography and history of the Americas (North, Central, and South America along with the Caribbean Islands) using an integrated approach considering the following factors:

- Theories about the first peopling of the Americas.
- The development of Mesoamerican Civilizations including the Olmec, Incas, Mayas, and Aztecs
- American Indian life in the Americas prior to European exploration including the peoples in the Southwest, Pacific Northwest, nomadic nations of the Great Plains, and the woodland peoples east of the Mississippi River (Eastern Woodland)
- The causes and consequences of European exploration and colonization
- African life before the 16th Century
- The environmental, political, and cultural consequences of the interactions among European, African, and American Indian peoples in the late 15th through 17th centuries
- Regional settlement patterns and significant developments in Southern, New England, and Mid- Atlantic colonies
- European slave trade and slavery in Colonial America
- Life in Colonial America
- Roles and responsibilities as members of a society
- The contributions of various cultural and ethnic groups to the development of the Americas
- Examination of primary and secondary sources including written and oral histories, images, and artifacts
- Disciplinary skills and processes including change and continuity over time, multiple perspectives, using and understanding sources, and cause and effect

HISTORY

The development of civilizations, societies, cultures, and innovations have influenced history and continue to impact the modern world.

- 3.H1.1 Utilize a variety of sources to construct a historical narrative exploring Arizona's cultures, civilizations, and innovations.
 - Key concepts include but are not limited to impact of Native Americans, Hispanics, African Americans, and newcomers from the United States and world on art, language, architecture, mining, agriculture, and innovations
 - Key concepts include but are not limited to explorers, settlers, trappers, missionaries, and colonizers
 - Key events include but are not limited to statehood
 - The influences of key people in the history and development of Arizona

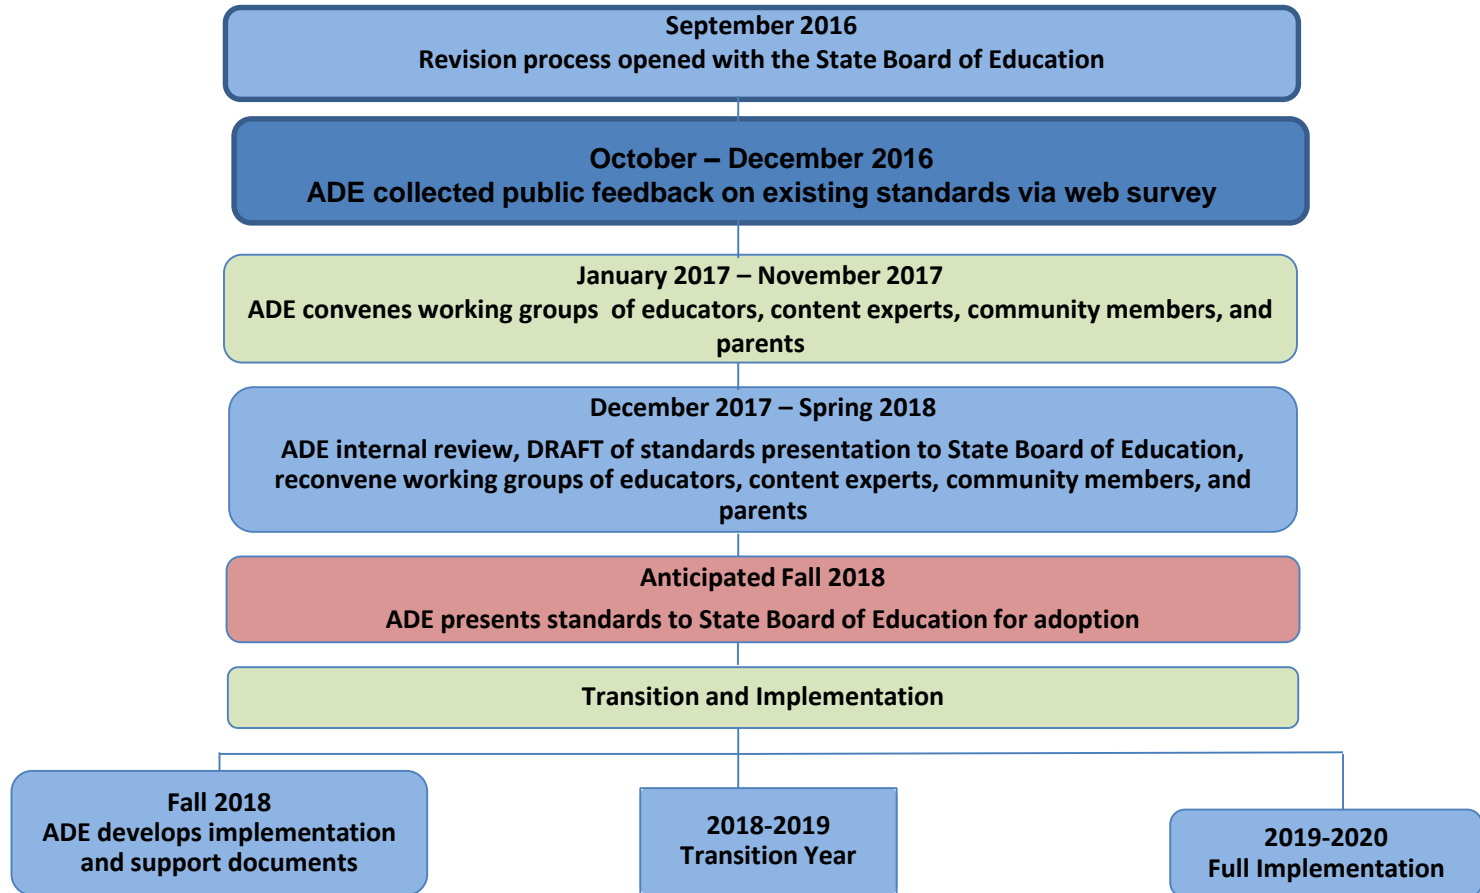

Cycles of conflict and cooperation have shaped relations among people, places, and environments.

- 3.H2.1 Use primary and secondary sources to generate questions about the causes and effects of conflicts and resolutions throughout Arizona's history.
 - Key concepts include but are not limited to conflicts over exploration, colonization, the Mexican Revolution, Mexican-American War, Civil War, settlement, industrialism, and the 22 Arizona Indian Nations

Economic, political, and religious ideas and institutions have influenced history and continue to shape the modern world.

- 3.H3.1 Evaluate how individual rights, freedoms, and responsibilities can vary based on community, state, and nation.
 - Key concepts include women's rights, segregation, Native American rights and citizenship, internment and POW (prisoners of war) camps, migrants and farmworkers, Latino American, and juveniles
- 3.H3.2 Use primary and secondary sources to analyze the changes that have taken place in Arizona since the 1950's.

Arizona History and Social Science Standards Implementation Timeline

Working Group Norms

- Actively engage in all discussions
- Be open-minded
- Have an attitude that fosters collaboration, agreement, and consensus
- Be mindful of timelines and scope of work

Standards, Curriculum, & Instruction

- **Standards** – What a student needs to know, understand, and be able to do by the end of each grade. Standards build across grade levels in a progression of increasing understanding and through a range of cognitive demand levels. Standards are adopted at the state level by the State Board of Education.

This is the “WHAT”

Standards, Curriculum, & Instruction

Curriculum – The resources used for teaching and learning the standards. Curricula are adopted at a local level by districts and schools.

Instruction – The methods used by teachers to teach their students. Instructional techniques are employed by individual teachers in response to the needs of the students in their classes to help them progress through the curriculum in order to master the standards.

This is the “HOW”

Standards versus Performance Objectives

Content Standards

Standards are what students need to know, understand, and be able to do **by** the end of each grade level. Standards build across grade levels in a progression of increasing understanding and through a range of cognitive demand levels.

Performance Objectives

Performance Objectives are **incremental steps** toward mastery of individual content standards. Performance Objectives are knowledge and skills that a student must demonstrate at each grade level. Performance objectives do not imply a progression of learning and, because they are discrete skills, reach a limited level of cognitive demand.

Working Group Vision of the Social Studies Standards

The Arizona Social Studies Standards are designed to provide all K-12 students the knowledge and skills to prepare them to make informed and reasoned decisions for the public good as citizens of a culturally diverse, democratic society in an interdependent world.

1. Historical Thinking Skills, Disciplinary literacy, and Inquiry skills should be included in the standards documents and embedded in the standards when appropriate.
2. The standards should support culturally inclusive practices by promoting educational environments which value the rich heritage of all communities and cultures across the state, nation and world fostering appreciation for all.
3. The standards should demonstrate a progression of learning that spirals and increases in complexity from kindergarten through 12th grade.

What does it mean to learn history?

- In 1492 Columbus sailed the ocean blue.

FACTS

**PEOPLE, EVENTS,
DATES,**

**WHAT DOES
THIS MEAN?
WHY IS THIS
IMPORTANT?
WHY SHOULD I
CARE AS A
STUDENT?**

The new standards build on the facts to look at the larger picture.

- What was happening in Europe that led to exploration and discovery?
- How did the voyages of Columbus and other explorers impact the lives of Europeans?
- How did the voyages of Columbus and other explorers impact the lives of the native peoples in the Americas.
 - What technological advances did his voyages spur?
 - How did his voyages link the world through globalization?
 - What were the impacts of his voyage on the creation of the United States? On me?
 - Why does pizza have tomato sauce on it?
- Why is Columbus Day a national holiday but also a source of conflict among different communities today?

Standards Organized Around 21 Big Ideas

- Disciplinary Skills and Processes
- Civics
- Economics
- Geography
- History

Disciplinary Skills and Processes

Big Idea Chronological reasoning requires understanding processes of change and continuity over time, which means assessing similarities and differences between historical periods and between past and present.

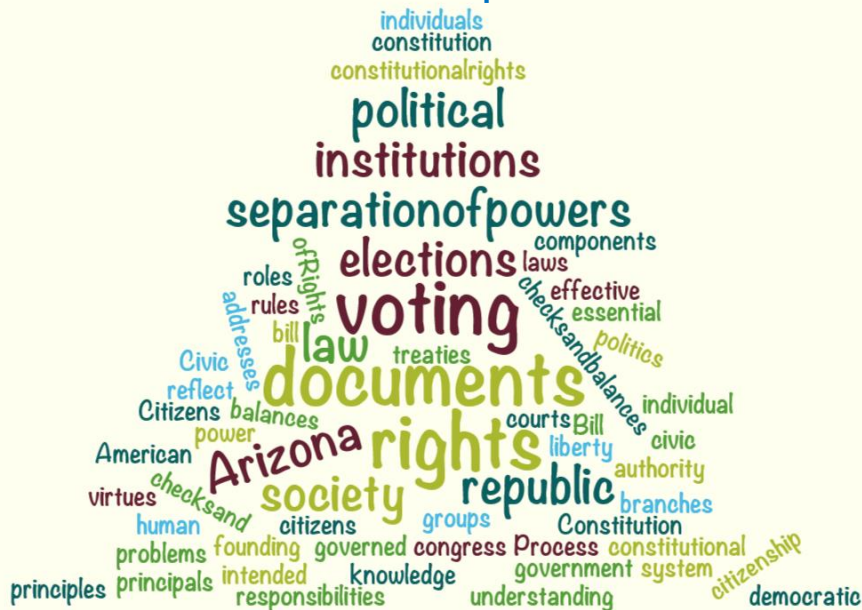

- **1.SP1.1-Place** important life events in chronological order on a timeline.
- **4.SP1.1- Create** and **use** a chronological sequence of related events to **compare** developments that happened at the same time.
- **7.SP1.1-Analyze** connections among events and developments in broader historical contexts.
- **HS.SP1.1- Evaluate** how historical events and developments were shaped by unique circumstances of time and place as well as broader historical contexts.

Civics

Big Idea An understanding of civic and political institutions in society and the principals these institutions are intended to reflect including knowledge about law, politics, and government are essential to effective citizenship.

- **1.C3.1- Explain** the importance of rules and laws in our community.

- **8.C3.3-Compare** the structures, powers, and limits of government at different levels in the United States.
- **HS.C3.1-Examine** how the United States Constitution established a system of government that has powers, responsibilities, and limits and analyze how those powers, responsibilities, and limits have changed over time.

Economics

- **Big Idea** A financially literate individual understands how to manage income, spending, and investment.

- **1.E1.2- Describe** reasons to save or spend money.
- **3.E1.3- Identify** positive and negative incentives that influence financial decisions people make to save and spend money.
- **8.E1.2- Analyze** the relationship between interest rates, saving, and return.
- **HS.E1.4- Compare** the costs and benefits of different types of investments.

Geography

- **Big Idea** The use of geographic representations and tools helps individuals understand their world.

- **2.G1.1- Use and construct** maps, graphs, and other geographic representations of familiar and unfamiliar places in the world to locate physical and human features.
- **4.G1.1- Use and construct** maps and graphs to represent changes in the Americas over time.
- **7.G1.1- Use and construct** maps and other geographical representations to explain the spatial patterns of cultural and environmental characteristics.
- **HS.G1.1- Use** geographic data to explain and analyze relationships between locations of place and regions.

History

- **Big Idea** –Cycles of conflict and cooperation have shaped relations among people, places, and environments.

- **1.H2.1- Explain** the benefits of cooperation and compromise as ways to solve conflict in our community.
- **4.H2.1- Describe** the cycles of conflict and compromise that occurred in the Americas during the convergence of Europeans, American Indians, and Africans in the Americas after 1492 from the perspectives of all three groups.
- **8.H2.1-Explain** how different beliefs about the government's role in social and economic life have affected political debates and policies in the United States.
- **HS.H2.3- Evaluate** the short and long-term impacts of conflicts and their resolutions.

Inquiry Elements

Supporting and Reinforcing the ELA Standards

- Read, write, speak, and listen about history, geography, economics, and civics by:
- **Developing Questions**
- **Gathering and Evaluating Sources**
- **Developing Claims**
- **Communicating Conclusions**

Review Feedback

Actionable Feedback

- Specific
- Related to Standards
- Organization
- Introduction
- Clarity
- Progression
- Wording
- Errors
- Key concepts

Non Actionable Feedback

- Vague
- Curriculum
- Instruction
- Resources/Textbooks
- Funding/Budget
- Assessment
- Non topical opinions
- New course requirements

Task 2- Actionable Feedback

- Go through actionable feedback
- Decide if action is needed.
- For feedback no action is needed- complete spread sheet with the reason why.
- For feedback that no action will be taken- complete spread sheet with reason why
- Make changes to draft in Blue

When should changes be made?

Non Negotiables

1. Storylines- theme stays the same but tweaks can be made on content choices within or scope.
2. Big Ideas stay the same but can be clarified
3. Key concepts but can change how formatted and content of concepts
4. Diverse viewpoints must be included

Change if

- Key information/content is missing
- Progression has gaps or redundancy
- Change clarifies standard
- Organization of document and/or standards needed
- Course considerations have problems
- Grammar error
- Change affirms vision and goals of standards

Debrief and Next Steps

- Share your group list of reoccurring themes/feedback
- Share any concerns your group has moving forward
