in the Cartwright Elementary School District
#83

Elementary Model

Elementary Model

Integration of the 4 time blocks for first year ELLs and all ELL below the Intermediate proficiency level

120 minutes of integrated reading, oral English conversation and vocabulary

120 minutes of integrated writing and grammar

Up to 30 minutes of literacy intervention with non-ELLs as part of 4-hours if appropriate

We Are Doing This Refinement

Elementary Model

Integration of the 4 time blocks and *reduction up to 1 hour*
for Intermediate ELLs in their 2nd or later year of ELD
instruction

90 minutes of integrated reading, oral English
conversation and vocabulary

90 minutes of integrated writing and
grammar

We Are Not Doing This Refinement, Now

Integration of the 4 time blocks and ***reduction up to 1 hour*** for Intermediate ELLs in their 2nd or Later year of ELD Instruction

Our student population is fairly transient, so it is hard to set-up classes that would be able to stay on a reduced timeframe.

If a few students within a class qualify for a reduction in block time, our SEI teachers have preferred to differentiate for them within their own room vs. sending them elsewhere.

We Are Not Doing This Refinement, Now

Template is minimum...

- This template demonstrates the *minimum* requirements for compliance when lesson planning for SEI classes
- Mastery of a PI may take several days
- Coding and titles are as expected by State monitors
 - **LS** = Listening & Speaking **L** = Language Strand when coding
 - Use title ***Oral English/Conversation & Vocabulary***
- Wording in parenthesis are included for clarification
- There may be additional district and school level expectations for lesson plans
- Blank spaces on the template are for the teacher to include meaningful activity/district adopted materials/resources/methods used to address the skills of the PI during the allocated time
- It is recommended that plans and schedules be visible and in a prominent place in each SEI class.

Integrated *Instruction* - Benefits

Integrated *Instruction* - Staff Quotes

Benefits instructionally, and/or for students of integrating:

“More cohesive instruction”

“Teachers can spend more time targeting the specific needs of their ELs.”

“Learning, at its best, is not done in ‘snippets of time’ but rather, when integrated into all subject areas.”

“Teachers would tell me they sometimes needed more time for Reading, so the integrated block was the answer they needed. They now have time to weave phonemic awareness, phonics, vocabulary, fluency, and comprehension along with providing multiple opportunities for students to talk about what they are learning.”

Integrated *Instruction* - Staff Quotes

Benefits instructionally, and/or for students of integrating:

“Students are becoming better readers and writers as they have more time to process information.”

“Teachers tell me that the integrated reading block feels more natural.”

“I can say that from my experience students are making more of a connection with the integrated planning.”

“It is easier to understand the subjects when you see them together and how they work together.”

“Our kindergarten data was strikingly higher across the board.”

“ALL teaching when spiraled and encompassing all subject areas provides for greater understanding. “

Benefits of Implementing the 2 hour refinement

- It creates a path to graduation in four years even for students who start as pre-emergent.
- It opens up doors of opportunity for students to take a few electives their Junior and Senior Years- especially CTE courses or the arts programs.
- It motivates students who can see progress by moving from 4 hours to 2 hours of SEI a day.
