

Arizona Science Standards Revision Working Group

Date and time of meeting:	August 30, 2018 1:30 pm – 4:30 pm
Scope of work:	This working group of diverse grade level content experts and community members completed the review of the K-12 progression of standards as it relates to evolution for the draft document.
Work completed:	During the meeting, the working group committee worked on refining the draft using the research-based documents, <i>A Framework for K-12 Science Education</i> and <i>Working with Big Ideas of Science Education</i> . The working group reviewed the progression by grade level from 2004 to the current draft. Then they discussed and modified the standards for scientific accuracy. Lastly, the committee confirmed that the research supported the progression and key terms that support the standard.
Artifact:	The document (artifact) is the actual working document from the science working group committee. As the working groups discussed the feedback/comment they determined the necessary revisions and commented on the artifact: <ul style="list-style-type: none">• Red Strike Through was deleted by the committee• Blue was added to the draft by the committee
Plans for next meeting:	There are no working group meetings scheduled at this time.
