Arizona Department of Education

Error Code	Description	Error Message	Comments	Year Created/ Last Modified
81001	If student membership record has only membership type C and no other membership exist at same DOR then report the discrepancy as an error.	There is no membership type M/T for submitted membership type C record. Submitting LEA need not be the same DOR.	Every C must overlap completely within M/T.	FY19
81002	If there is no student section association for student membership type C then report the discrepancy as an error. There should be student section association record for membership type M/T as well. There should be minimum one day Student section association exist for all the membership types.	Post-secondary concurrent students must have at least one section association in each concurrent membership.		FY19
81003	If student does not have course transcript for student section association within 10days of end of section or Jun 30th whichever is sooner then report discrepancy as an error.	For students in PCCP, Course transcript does not exist for the (LocalCourseCode).		FY19
81004	If student section association with local course code has no course schedule then report the discrepancy as an error. Minimum one day schedule needs to be present for local course code to pass this rule.	No course schedule submitted for student section association with local course code {####}.		FY19
81005	If planned instructional time for student across all student section association records with same DOR exceeds 1080 mins in one day then report the discrepancy as an error. Its addition of all available membership minutes (Including M and C) for one day for same DOR. Consider begin and end date of Student section association record.	Instructional time submitted per day for student section association record exceeds 1080 mins.		FY19
81006	If student record having membership type C is not in grade 9 to 12 then report discrepancy as an error.	Student submitted for concurrent course should be in grade 9 through 12.		FY19
