Purpose and Use of the AZELLA Stage I Sample Test

This is the Teacher’s Edition of the AZELLA Stage I Sample Test. This Sample Test was created to provide educators with a tool to help Kindergarten students feel comfortable and confident when taking the Stage I AZELLA. The samples included represent various common item types that a student will encounter on the AZELLA Stage I Reassessment Test.

This Sample Test does not contain a complete representation of all the item types on the actual Stage I AZELLA and is not designed to encompass the full scope of the performance indicators included in the Stage I English Language Proficiency Standards. Every year the full range of assessable performance indicators is available for testing on the actual Stage I test. Instruction must continue to include all of the English Language Proficiency Standards and performance indicators. All assessable performance indicators are eligible for inclusion on the test.

Point values are provided for each of the sample test items only to offer educators a general sense of the relative value of each of the items. The highest point value for any item is four points. The lowest point value is .4, which only occurs with the Speaking “repeat” items. **There is no score interpretation provided for this Sample Test.**

Included in this document are a *Response Summary* and rubrics for Writing and Speaking. The *Response Summary* is a one page form that provides a place for capturing student responses, an answer key for multiple-choice items, and scoring information for open-ended items scored using the identified rubrics. Short answer items in Writing and Speaking need to be scored using a rubric, which can be found in this document. Speaking item response scores are not captured in the student test book. It is recommended that you use the *Response Summary* while administering the Speaking test in order to capture scoring information for each Speaking item.

Although educators are able to use this Sample Test as it best fits their needs, to provide the students with the format and feel of the actual test you will want to print the test and have the students mark their answers on the pages. The test is designed in color, but can also be printed in grayscale. The test can be printed as single- or double-sided. The test is designed to be printed as a booklet and space is allowed for staples along the left side of the document. For those who must print single sided, the test will work just as effectively.
When administering this Sample Test, students may be inclined to share their work, collaborate with classmates, and shout out responses to the questions. To simulate the actual test environment, teachers should insist that students do their own work on this test. Students should be seated so they cannot see each other's work. Although the Sample Test is much shorter than the actual Stage I Reassessment, creating an appropriate test environment for the Sample Test is another way to assist students to feel comfortable when taking the actual Stage I test.

For the Sample Test, the Test Administrator will read the test items to students. There is no Listening CD. There is no telephone Speaking component. Scripts are provided in this Teacher’s Edition. Speak slowly and clearly but in a normal tone of voice.

There are items on this Sample Test that are the actual sample items from the Stage I test. The remaining items are similar in type, but are not actual test items. It is not advisable to alter the script or items.

Even before taking this Sample Test, Kindergarten students are likely to need practice following directions, finding page numbers, locating item numbers, and learning how to correctly bubble responses. In this document, you will find a Student Practice Sheet and teacher instructions that you may use to practice these test taking skills prior to taking the Sample Test.

Since the Spring 2018 AZELLA Stage I Reassessment is a standardized test, the Sample Test must provide similar directions and item types to parallel the actual test. Therefore, the Sample Test scripted directions are formatted like the actual test to guide you through the test administration and to help ensure proper testing procedures. Please review the directions in advance to become familiar with the scripted text and testing procedures.

**SAY**
Read aloud to students only what is marked with “SAY” and printed in bold type.

**Text Printed in Italics**
Directions and information for Test Administrators are printed in italics. Text printed in italics should not be read aloud to students.

**Listening Section**
The Listening section of this Sample Test includes seven (7) multiple choice items that are worth 1 point each.
Reading Section

The Reading section of this Sample Test includes eleven (11) multiple choice items that are worth 1 point each.

There are three items (9, 10, and 11) associated with the passage on page 12, “A Day in the Park.” If the test is printed as single-sided only, you will likely need to assist students to understand that the passage is on one page and the questions are on the following page.

Writing Section

The Writing section of this Sample Test includes eight (8) short answer items. One is worth 1 point, five are worth 2 points, and two are worth 3 points. The scoring rubrics for Writing items are provided in this guide.

You will find the picture prompt for item number 7 on page 20. If the test is printed as single-sided only, you will likely need to assist students to understand that the prompt is on one page and the response text box is on the following page.

Speaking Section

The Speaking section of this Sample Test includes 15 items: six short answer items worth 1 point each; three short answer items worth 2 points each; one extended response worth 4 points; five repeat items worth .4 points each for a total of 2 points. The scoring rubrics for Speaking items are provided in this guide.

Item number 6 asks students to, “Read the number in each of the gray boxes.” Numbers 2, 10, and 0 are presented separately as one number in each gray box. The student may say two, ten, zero, or twenty-one-hundred, or two-thousand-one hundred.

For item number 10, the second question “Tell me why you would rather read a book or watch television,” does not take into account the student’s response to the previous question, “What would you rather do, read a book or watch television?” The actual Speaking Test will ask the question in the same format; therefore, the Test Administrator should ask the question exactly as written.

Writing AZELLA Holistic (Conventions) Rubric
Stage I: 0-2 points
Rubric ID: I.W.2.a
Use for items numbered: #1, #2, #3, #4

Rubric interpretation: This holistic rubric is measuring student skill in English copying/writing conventions, including various prompts directed at capitalization, punctuation, and formation of both upper and lower case letters, and proper spacing in both words and sentences. It also measures student ability to identify letter-sound relationship at the beginning of words. In holistic scoring, the best fit score is awarded.

Spacing is judged by whether or not the student attempts to be consistent with letters within words and words within sentences. If the spacing between letters is reasonably consistent from one letter to the next and one word to the next, it is correct.

Stage I and II: 0-3 points
Rubric ID: I-II.W.3
Use for items numbered: #7, #8

Rubric interpretation: This holistic rubric measures student skill in creating multiple English sentences about a topic that is depicted in one or more pictures. In holistic scoring, the best fit score is awarded. Note that instructional support per the ELP Standards in some or all Stages is considered in scoring. Evidence of correct subject-verb is considered, as well as capitalization, punctuation, and spelling. Evidence of consistent spacing between letters and words is also considered. Response will include reference(s) to the prompt/picture(s). Determining the descriptors “minimal” and “minor” should be judged based on number and/or severity of errors per number of words or sentences (e.g., 10 words with 3 errors is equivalent to minimal or minor; 2 sentences with 3 errors is minimal; 1 sentence with 2 errors is minimal). If spelling of more complex words is phonetic and words are recognizable, it can be accepted.

Speaking Rubrics

Speaking AZELLA Holistic Rubric
Stage I: 0-1 points
Rubric ID: I.S.1
Use for items numbered: #1, #2, #3, #4, #5, #6

Rubric interpretation: The holistic rubric is measuring student ability to respond to a prompt or question in intelligible English. Scorers must use the rubric to correctly assign scores. In holistic scoring, the best fit score is awarded.

Students may be prompted to repeat a word that is also shown in a picture or to speak cardinal numbers that are printed in the test book. Some prompts ask students to identify what is represented by a picture in the test book.

Some picture prompts may result in a variation of the correct response. For instance, if the student is asked to identify a cat from a picture but is not told to repeat an exact word, the student may say cat or kitten or animal. The measure is based on an intelligible and correct response in English, not on knowing what the picture represents. As long as the response is clearly tied to the question, it is scorable.

Responses that are the result of reading cardinal numbers may also vary. For instance, if the numbers 5, 3, and 2 are presented separately in the book, the student may say five-thirty-two or five hundred and thirty-two or five, three, two. Ordinal numbers are limited to first, second, third, etc.

Speaking AZELLA Holistic Rubric
Stage I: 0-2 points
Rubric ID: I.S.2
Use for items numbered: #7, #8, and #10

Rubric interpretation: The holistic rubric is measuring student ability to respond to a prompt or question in one or more complete, intelligible English sentence(s). Pronunciation is also measured; however, intelligibility is the guiding principle. Students are instructed to respond in complete sentences to tell about a picture. In holistic scoring, the best fit score is awarded.

While the prompt asks for complete sentences, students who respond in one complete sentence with intelligible pronunciation that clearly answers the prompt can earn a score of 2. The measure is intelligible English with correct grammar (including syntax), not the number of sentences. Of course, the response must be clearly tied to the prompt or question.

|        | • Response has no more than one non-English word used.  
|        | • Response has no more than one error in grammar (including syntax) and pronunciation errors do not impede comprehension. |
| 0      | Student responds incorrectly in limited or no English.  
|        | • No response is given.  
|        | • Partial response is given.

Rubric ID: I-V.S.4 (Extended Response)
Stages I-V
0-4 points
Use for item number: #9

Rubric interpretation: The AZELLA 4 Point Speaking Rubric is a scoring tool that measures correct oral English responses to given stimuli in two or more sentences. The items in Stages I, II, III, IV, and V assess students’ ability to orally respond to stimuli using correct grammar and understandable English. The rubric is defined by score points 0-4. Students who correctly respond to two separate questions using correct English grammar and intelligible English earn a score point 4. Some items will ask a student to respond in two or more interrogative sentences.

Score 4: Student formulates a response in correct understandable English using two or more sentences based on given stimuli.

- Student responds in complete declarative or interrogative sentences.
- Grammar (including syntax) errors are not evident and do not impede communication.
- Student responds with clear and correct pronunciation.
- Student responds using correct syntax.

Score 3: Student formulates a response in understandable English using two or more sentences based on a given stimuli.

- Student responds in complete declarative or interrogative sentences.
- Sentences have minor grammatical (including syntax) errors.
- Student responds with clear and correct pronunciation.

Score 2: Student formulates an intelligible English response based on given stimuli.

- Student does not respond in two complete declarative or interrogative sentences.
- Student responds with errors in grammar (including syntax).
- Student attempts to respond with clear and correct pronunciation.

Score 1: Student formulates erroneous responses based on given stimuli.

- Student does not respond in complete declarative or interrogative sentences.
- Student responds with significant errors in grammar (including syntax).
- Student does not respond with clear and correct pronunciation.

Score 0:

- Student formulates responses in non-English.
- Student does not respond.
Scoring Repeat Items

Use for items numbered: #11, #12, #13, #14, #15

At every Stage the AZELLA includes 10 repeat items. Educators are encouraged to practice repeat item types with students so that they are familiar with this format and can respond comfortably when encountering these items on the actual test.

The ten repeat items as a whole count for 4 points of the Speaking test. Although each individual item is only worth .4 point, the electronic scoring engine used for the AZELLA Spring Reassessment is trained to measure multiple characteristics of the student’s oral response.

There are three general characteristics that the Speaking “Repeat” items are scored on: accuracy, fluency, and pronunciation. For the purpose of scoring AZELLA Sample Test “Repeat” items, the following definitions for Fluency and Pronunciation are provided.

Fluency: Smooth, rapid speaking evidenced by appropriate rhythm, phrasing, pausing, and word emphasis in continuous speech.

Pronunciation: Ability to produce consonants, vowels and stress clearly and accurately in sentence context; also, knowledge of the phonological form (phonemes and lexical stress) of everyday words.
