Free and Reduced Report

School Year 2018-2019

The Free and Reduced report is based off free and reduced-price meal eligibility that is reported by each School Food Authority (SFA). An SFA is the governing body that is responsible for the administration of one or more schools, and has the legal authority to operate the School Lunch and/or School Breakfast Program. Occasionally, some non-associated sites can contract with SFA's, which means that the school site may appear under an SFA that is not their normal District/Charter District of operation. Some schools are included in an SFA even though they are in a different school or charter district. The eligibility numbers and enrollment figures are from October of the current school year, as reported by the SFA as of the 31<sup>st</sup> of October. For the purpose of the National School Lunch Program (NSLP), "eligible" means that a student has been certified as qualifying for free or reduced-price benefits based on Family Size and Income Guidelines published by the United State Department of Agriculture. To be eligible for free meals, a family's income must be at or below 130% of the federal poverty level or are Directly Certified as free-eligible. Families whose income falls between 130% and 185% of the federal poverty line qualify for reduced-price meals. Eligibility determinations are made at the local level by the food service director, principal or other person designated by the school administration.

The report for 2018-2019 uses the Child Nutrition Programs online reporting system site claims. The information has been manually calculated for all schools participating in the school lunch program. For schools participating in the Community Eligibility Provision, their numbers of eligible students are determined by their individual site Identified Student Percentage, as instructed by USDA. There are public schools in the state of Arizona that do not participate in the NSLP and therefore are not mentioned in this report. For schools participating in Provision 2/3, the number of eligible students is determined by the school's base year of operation.

How the report is organized:

The report is organized alphabetically by School Food Authority. The schools participating within the SFA are then listed alphabetically by school name.

Column Headings

1. School Food Authority (SFA)Name
2. School Food Authority (SFA) CTDS
3. School Food Authority (SFA) Entity ID
4. Site Name
5. Site CTDS
6. Site Entity ID
7. Program Participation
8. Enrollment – **Please note:** This may be different from school enrollment because students may be included in the lunch program even though they are not enrolled in the school. Example: Preschool students are not normally counted as enrolled students for regular ADE state funding purposes, however, they are considered enrolled in the NSLP program.
9. Published Free and Reduced Percentage

Statewide Average: The statewide total enrollment of students in the school lunch programs is 1,071,830. The total number of students eligible for free and reduce- price meals is 601,296. Therefore, the statewide average eligibility is 56%.

#### Data Suppression

The masking of certain data is required by Arizona Department of Education (ADE) policy. The policy is based on federal laws to protect the privacy of students. The USDA limits the disclosure of student eligibility for free and reduced-price meals or free milk. USDA regulation 7 CFR 245.8(f)(8) prescribes the penalty for any individual who provides unauthorized disclosure as a fine of not more than \$1,000 or imprisonment for up to one (1) year, or both. In addition, disclosure of other certain protected data outside of ADE without the student's written consent violates ADE's policy formulated under the Family Education Rights and Privacy Act (FERPA) 20 U.S.C. §1232g. In addition to civil and criminal penalties, violation of FERPA can result in a loss of federal grant money. Ethical and legal considerations resulting from the USDA regulations and the FERPA law require ADE to mask data when released to the public.

The unmasked cells do not contain data for less than 10 students or greater than 98% enrolled students. USDA policy Memorandum SP 99-07 states that "Providing aggregate (eligibility) information that does not identify individuals continues to be permitted without consent." Release of data showing 100% of students could potentially identify a student and is not permitted. Masked data are identified with an " \* " (asterisk). Users of the data need to be aware that columns containing masked data will not give accurate aggregate results.
