

21st CCLC Framework-Youth Development

The State requires its 21st CCLC sub-grantees to monitor and report on grant outcome objectives that are SMART - Specific, Measurable, Attainable, Realistic and Time Bound (showing growth annually within the program year). Arizona's grantees must report on grant objectives for student participants' movement in at least one youth development indicator. The youth development indicator/s should be imbedded into the students' academic progress. Areas of academic progress should include math, reading, language arts, and literacy measured through benchmark/formative testing and growth in adult family members understanding/knowledge of how to help their child succeed.

Authorized under Title IV, Part B, of the Elementary and Secondary Education Act (ESEA),

As amended by the *No Child Left Behind Act of 2001*, the specific purposes of the law are to:

- (1) Provide opportunities for academic enrichment, including providing tutorial services to help students (particularly students in high-poverty areas and those who attend low-performing schools) meet State and local student performance standards in core academic subjects such as reading, writing, mathematics and science;
- (2) Offer students a broad array of additional services, programs and activities, such as youth development activities, drug and violence prevention programs, counseling programs, art, music, recreation programs, technology education programs, and character education programs that are designed to reinforce and complement the regular academic program of participating students.

The 21st Century Community Learning Center afterschool program is funded by a federal grant from the U.S. Department of Education and administered by the Arizona Department of Education.
