

PROFESSIONAL DEVELOPMENT PROGRAM

The STEMSS CRUISE EL program provides K-12 educators with a systemic plan of professional development designed to assist in the education of EL learners.

Our mission is to support and empower teachers, administration, staff, and parents of EL/DL students through a rigorous academic language acquisition training program.

Monthly workshops and summer immersion at ASU's Tempe campus enables you to:

- Develop and implement strategies, technology tools and instructional materials
- Drive improvement of academic vocabulary for ELs in the classroom
- Create and implement parent/family engagement events
- Build knowledge and familiarity with technologies and instructional strategies to assist in the development of academic vocabulary at home

For additional information, please contact the STEMSS CRUISE EL Team at STEMSS@asu.edu, or the Arizona Geographic Alliance at AzGA@asu.edu
