The following pages list the current accommodations, features, and tools available on Arizona’s achievement tests

Assessment Accommodations

To ensure valid interpretation of assessment results, it is not permissible to simplify, paraphrase, explain, or eliminate any test item, writing prompt, or answer option. If a student’s IEP calls for a testing accommodation that is not listed, contact ADE for guidance.

Administering Achievement Tests with Testing Accommodations

Prior to the day of a test, Test Administrators must know what accommodations each student will be using and how to administer them properly. Testing accommodations provided for one student may not impede or impact other students in the testing room. It is the responsibility of the Test Administrator to see that each student who qualifies for testing accommodations receives appropriate accommodations while also ensuring that other students who do not receive accommodations are not affected. Provision of designated accommodations are recorded differently for computer-based (CBT) and paper-based (PBT) tests for ELA, science, and mathematics testing. Refer to the appropriate *Test Administration Directions* on how to properly record accommodations provided for each test. Use of designated accommodations is captured electronically on the CBT. For PBT, the Test Administrator must record both provision and observed use of testing accommodations.
