

STEM/STEAM Student and Teacher Panel: Education for 21st Century Learners

Presenter: Haley Honeman, ADE

Learn what schools across Arizona are doing to provide students with integrated learning experiences in Sciences, Technology, Engineering, Arts, and Math. This session will feature a panel of 4 STEM/STEAM projects from student and teacher co-presenters. Get ideas for how to infuse hands on learning into the curriculum at your LEA. Learn how this approach to teaching and learning prepares students with the skills they need for 21st century success.

Intended Audience: Teachers, Paraprofessionals, School Administrators, Federal Grants Administrators
