

## **The Keys to Engagement**

**Presenters:** Libby Midkiff and Kelly Klein, Mesa Public Schools

This presentation will allow learners to actively engage in strategies that deepen student learning by activating the learning centers of the brain. Participants will learn how current research supports the use of active engagement protocols in the classroom to connect and solidify learning. The strategies presented will encourage learners to collaborate, communicate and participate at a deeper level of learning and are designed to fit any curriculum or grade level.

**Intended Audience:** Teachers, School Administrators, Curriculum and Instruction Administrators, Professional Development Facilitators
