Additional Considerations	Determination (Yes/No)
Does sufficient administrative support exist to make it worth pursuing?	
Can proposal be completed within timeframe allotted?	
Are signature requirements possible within time frame?	
Does this program fit well with others already in place?	
Does required "collaboration/partnerships" require too much time to develop compared to potential results?	
Are reporting requirements too extensive?	
Do we have the capabilities to collect the "data" required?	
Are we able to conduct ongoing evaluation of program and provide an evaluation report?	
Can we sustain the program after funding ends?	
Can these funds or this program be blended to expand or enhance existing out of school time efforts?
