

## Important Statewide Testing Information - Updates March 17, 2020

---

District Test Coordinators,

We wanted to let you know that we will be updating you as information becomes available. We are also posting these updates on the DTC website if you wish to share the link with your administrators and staff.

We have two short updates for today:

MSAA is looking to postpone the testing window, and we will let you know when the new testing dates are set.

AzM2 - The Additional Order Window has opened, but we will extend the deadline to submit requests until after schools have reopened. You may put in your order now or wait until schools reopen. We will not be processing these requests until closer to the testing dates, but any submitted orders will remain in TIDE.
