

Arizona Educational Technology Standards Review and Rewrite – Committee Application is Open

The Arizona Department of Education and K-12 Standards Section are seeking applications from K-12 educators, educational technology K-12 leaders and professors from institutes of higher education. The Educational Technology Committee will begin virtual meetings in late May 2020 with the timeline of completion of a new set of standards set for January 2021.

Please complete the application to be part of the Educational Technology Standards Revision Workgroup. Applications will close on May 1. Committee members will be invited over the course of the process. We look forward to working together to create standards to support all Arizona students being life ready at high school graduation.
