State Tutor Fund - ADEConnect

Description

The State Tutoring Program is designed to provide standards based tutoring in reading, writing, and mathematics for schools with a letter grade of a D or F. This application has additional security within the application. Please contact the program area if the user is not able to see the link in ADEConnect after the role is assigned.

Role Name	Permissions in STF ADEConnect Application
State tutor Fund – General User	This role is to be assigned to **tutors** that **teach at a school** in an LEA. With this role, a tutor can add their students along with session time details. Tutors can only see their students and sessions.
State tutor Fund – Coordinator	This role is to be assigned to **site coordinators**. With this role, the coordinator will be able to see sessions for all the tutors who are assigned within their specific school at one time. A coordinator can also be a tutor at their school. This role will allow the user to enter students and sessions as a tutor and run reports on the other tutors at their school*.* ***There can only be one coordinator per school site.***
State Tutor Fund-Vendor User	The role is to be assigned to **tutors** that are contracted with one of the state tutoring **vendor companies**. With this role, a tutor can add their students along with sessions time details. Tutors can only see their students and sessions.
State Tutor Fund- Vendor Admin	The Vendor Admin role will be able to see all of the tutors within their company at one time (not individual) who are assigned within their company and edit information one at a time.
