Overview of the CNP Direct Certification Process

SECTION 1

Direct Certification

DEFINITIONS

Direct Certification is the process of determining which students are eligible for free meal benefits based on documentation obtained directly from the appropriate state or local agency. Students directly certified will automatically receive free meal benefits without submitting a household application.

ADE houses an online computer matching system called **CNP Direct Certification** which allows SFAs to directly obtain confirmation from such agencies to determine if their students will qualify for free meal benefits.

- SFAs can access this system at any time to generate documentation that may be used to certify students for free meal benefits without a household application within the current program year.

The screenshot shows a web interface titled "Direct Certification". The main text explains that Direct Certification means determining which children are eligible for free or reduced-price meal benefits based on documentation obtained directly from the appropriate State or local agency. It states that All Child Nutrition Program School Food Authorities (SFAs)* are required to conduct a Direct Certification report at least three times per school year using CNP Direct Certification. A bulleted list specifies the timing: At or around the beginning of the school year (July 1), Three months after the initial effort, and Six months after the initial effort. It also notes that no application is necessary if eligibility is determined through the direct certification process. A paragraph mentions that if a household submits an application for children who were directly certified for free meals, direct certification takes precedence over an application, and students in households directly certified for Medicaid Reduced eligibility should be encouraged to submit a NSLP application if the household believes they may qualify for free meals. At the bottom, there is a blue link labeled "Modify" and a blue button labeled "Proceed to Direct Certification >>>".

Individual Student Lookup

This method is recommended when searching a small number of students.

It allows the user to search up to 99 students at a time and does not require any file uploads. This method is best applied when conducting direct certification for newly enrolled students.

Type the student's data directly into this search table.

The screenshot shows the Arizona Department of Education's Direct Certification Individual Student Lookup interface. At the top is the ADE logo and a navigation bar with links for Home, Direct Certification, Email Notification, and Administration. The main heading is "Direct Certification Individual Student Lookup". Below this is a list of instructions: "This method is best utilized to conduct Direct Certification searches when new students enroll.", "Use this method to search a small number of students.", "This method will allow the user to search up to 99 students at a time.", "Select the appropriate Search Format from the dropdown box.", and "Once the user begins entering data the form will automatically add a new line." A link to the ADE Online Training Library is provided. Below the instructions is a "Search Format" dropdown menu set to "Standard (First and Last Name, Birthdate)". At the bottom is a table with four columns: S.No, First Name, Last Name, and Birth Date. The first row of the table has the number "1" in the S.No column and empty input fields for the other three columns. Below the table are "Search" and "Clear" buttons.

Direct Verification

Available October 1st

Conducting Direct Verification is a requirement in the state of Arizona. Direct Verification is not Direct Certification; however, they're located in the same application via the ADEConnect, CNP Direct Certification/Direct Verification. Direct Verification may only be conducted during the Verification time frame (Oct. 1- Nov. 15) and must only be conducted for applications that are selected as part of the Verification sample. Since Verification for Cause can be conducted at any time during the year, including dates that Direct Verification is not available, ADE does not require School Food Authorities to conduct Direct Verification for applications selected to be verified for cause.

ARIZONA EDUCATION DATA STANDARDS (AZEDS)

Arizona Education Data Standards (AzEDS)- Arizona Department of Education's (ADE's) information system that maintains and reports student level data for students attending a public educational institution in Arizona.

State Student ID- ADE assigns each student with an AzEDS State Student ID (formerly known as SAIS ID) that acts as a student identifier from K-12th grade.

Student data is pulled from the pre-populated enrollment information in AzEDS. State Student IDs can be utilized to conduct direct certification only if the LEA uses AzEDS to send information to ADE.

Individual Student Lookup

SEARCH TYPES IN INDIVIDUAL STUDENT LOOKUP

In order for a student to match, SFAs must enter identifiable student data into CNP Direct Certification.

Individual Student Lookup provides SFAs the opportunity to choose from four different search types to determine if a student matches in CNP Direct Certification.

Search Types:

- Standard (First and Last Name and Birthdate)
- State Student ID
- Case Number

The following slides will guide you through each type listed above.

AUTOMATED MATCHING:

CNP Direct Certification system conducts automated searches. Users who opt-in to the email subscription will receive an email notice when a new Match has been found. The automated system searches records nightly for new Matches. Users must opt-in to the email subscription to receive these notifications. To opt-in, click the 'Email Notification' link in the menu bar at the top of the CNP Direct Certification page. Then, click 'Opt-in' and 'Save'.

PARTIAL MATCHING:

When a partial match is designated as a Match or a No Match, the designation is saved for the rest of the program year.

RESULT DATE:

A new column titled "Result Date" has been added to the search results. The Result Date is the date a Match was found by conducting Direct Certification or the date a Partial Match was designated to a Match.

RESULT DOWNLOAD:

When results are downloaded to Excel, the 'Summary' will contain the Results Summary. The 'Results' tab will contain the detailed match results.

SEARCH RESULTS TABLE:

The search results table no longer counts withdrawn or duplicated students.

The match categories only include the number of unique matches based on the order of priority and adhere to USDA Direct Certification heirarchy rules. For instance, if a student matches in both SNAP and TANF, the student will only be counted in the SNAP category.

ORDER OF PRIORITY:

- Supplemental Nutrition Assistance Program (SNAP)
- Temporary Assistance for Needy Families (TANF)
- Food Distribution Program on Indian Reservations (FDPIR)
- Foster Care
- Migrant Education Program (MEP)
- Homeless
- Medicaid (MA) Free
- Medicaid (MA) Reduced
