

Technology Devices Maintenance 15.1202.00

Program Description, Industry Credential, Coherent Sequence, and Teacher Certification

PROGRAM DESCRIPTION

The **Technology Devices Maintenance** instructional program prepares students to design, development, installation, implementation, use, and management of computers and various computer devices. Students who successfully complete the **Technology Devices Maintenance** program's coherent sequence of instruction will develop effective methods to troubleshooting problems using effective communication skills by asking key questions, listening for technical problems and, in turn, explaining problems in an understandable way.

Throughout the **Technology Devices Maintenance** instructional program, students learn and use appropriate diagnostic tools to assess and diagnose problems on computers, laptops, I-pads, printers and or cellphones. Advanced critical thinking skills will be developed with applied interpersonal relations, life skills, business, economic, and leadership skills as well as workplace employability skills.

The **Technology Devices Maintenance** Career and Technical Education program is delivered as a coherent sequence of courses designed to offer students' knowledge and skills that meet the needs of the workplace. The Professional Skills developed by business and industry leaders across Arizona are integrated throughout the program. **Technology Devices Maintenance** students develop leadership, social, civic, and career skills through participation in the state-recognized Career and Technical Student Organizations, SkillsUSA or FBLA (Future Business Leaders of America).

The **Technology Devices Maintenance** instructional program prepares students for entry-level employment, further training, and/or post-secondary education for these and other occupations: Applications Specialist, Desktop Technician, Field Service Technician, Hardware Technician/Engineer, Help Desk Technician/Manager, IT Designer, IT Systems Administrator, IT Support Technician, PC Technician, Program Analyst, Security Systems Technician, Systems Analyst, Systems Operations Specialist, Systems Support Technician, Technical Sales Representative, Technical Support Technician/Manager, Technical Writer, Telecommunications Support Technician, and Training Manager
