Integrity Error -10138

Error Message:

Students attending Private Day Schools must be reported with a SPED Least Restrictive Environment (LRE).

Description:

Private Day School enrollment must be reported with SPED Least Restrictive Environment for all days of reported enrollment.

Example:

- Enrollment
    - Site: Private Day School
        - Begin Date
        - End Date
- SPED
    - LRE
        - Begin Date
        - End Date

-10138
Is there a SPED Least Restrictive Environment (LRE) reported for all dates of the Private Day School Enrollment?

Troubleshooting:

- Verify Begin and End dates on Enrollment data and SPED data. Ensure all dates of the reported enrollment at the Private Day School have a reported SPED LRE.
- Ensure if there is an End date reported for either SPED data or Enrollment data that both sets have End dates. AzEDS will translate a NULL exit date as a continuation of that data, and thus going beyond the other set that has the end date.
- Review the STUD10 report in the AzEDS Portal to confirm the school site enrollment dates reported
- Review the SPED10 report in the AzEDS Portal to confirm the SPED LRE dates reported.
- Once corrected, allow integrity to run overnight to see if student is passing integrity on the INTEG15 report.

A listing of all Integrity Rules can be found on the AzEDS website.
