

Computer-Based Sample Test Scoring Guide Grade 7 Math

Updated January 2026
Prepared by the Arizona Department of Education

About the Sample Test Scoring Guide

The Arizona's Academic Standards Assessment (AASA) Sample Test Scoring Guides provide details about the items, student response types, correct responses, and related scoring considerations for AASA Sample Test items.

Within this guide, each item is presented with the following information:

- Item number
- Cluster
- Content Standard
- Depth of Knowledge (DOK)
- Static presentation of the item
- Static presentation of student response field (when appropriate)
- Answer key, rubric or exemplar
- Applicable score point(s) for each item

The items included in this guide are representative of the kinds of items that students can expect to experience when taking the computer-based test for AASA Grade 7 Math.

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
1	7.G.B	7.G.B.6	2

The figure shows the dimensions, in feet (ft), of the floor of a tent.

The volume of the tent is 144 cubic feet. What is the height, in feet, of the tent?

- ☐ A. 1.5
- ☐ B. 3
- ☒ C. 6
- ☐ D. 12

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
2	7.SP.A	7.SP.A.2	2

A teacher surveyed 20 students from 4 grades to decide which game to play on the last day of school. The table shows the results.

Student Survey Results

Grade	Prefer Baseball	Prefer Soccer
5	14	6
6	13	7
7	8	12
8	5	15

The teacher will choose the same game for all 4 grades. Which conclusions are supported by the survey results?

Move the correct answer to each box. Each answer may be used more than once.

Supported

Not supported

Conclusion	Supported or Not Supported
Most students want to play soccer.	Not supported
Students in grades 7 and 8 like soccer more than baseball.	Supported
The data will not help the teacher choose a game.	Supported

Scoring Rubric

Score	Description
1	Student response is, from top to bottom: • Not supported • Supported • Supported
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
3	7.EE.A	7.EE.A.2	2

A clothing store is having a sale. All items are on sale for 35% off the original price. Create an equation in terms of p , the original price of an item, to show the sale price of the item before any sales tax.

Enter your answer in the space provided.

$$p - 0.35p = 0.65p$$

1	2	3
4	5	6
7	8	9
	0	$\frac{\Box}{\Box}$
.	-	$\frac{\Box}{\Box}$

Scoring Rubric	
Score	Description
1	Student response is 0.35 or equivalent number in gap 1 and 0.65 or equivalent number in gap 2. Only numeric values allowed in gaps.
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
4	7.G.A	7.G.A.1	2

Square P and square Q are shown. One side of square P is 4 inches in length, and the area of square P is 4 times the area of square Q . What is the area of each square?

Move the correct answer to each box. Not all draggers will be used.

1 square inch

2 square inches

P

Area = 16 square inches

Q

Area = 4 square inches

Scoring Rubric	
Score	Description
1	The student correctly labels the area of square P as 16 square inches and the area of square Q as 4 square inches.
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
5	7.RP.A	7.RP.A.2	2

The graph shows the number of points earned for every book read in a summer reading program.

Which statements about the graph are true?

Select all the correct answers.

- ☐ A. The graph of the equation is $y = \frac{1}{10}x$.
- ☒ B. The number of points earned for reading 20 books is 200.
- ☐ C. The constant of proportionality is 1 point for every 10 books read.
- ☒ D. The relationship is proportional because the graph starts at the origin.
- ☒ E. The point (1, 10) represents the unit rate of 10 points for every book read.

(1 Point) Student selected all of the correct answers.

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
6	7.NS.A	7.NS.A.2	1

Some expressions are shown. All variables are positive, non-zero integers. Determine whether the value of each expression is positive or negative.

Select all the correct answers.

Expression	Positive	Negative
$-x \div -y$	☒	☐
$-x \div -(-y)$	☐	☒
$(-x)(-y)(-z)$	☐	☒
$(-w)(x)(-y)(z)$	☒	☐

Scoring Rubric

Score	Description
1	The student selects, from top to bottom: • Positive • Negative • Negative • Positive
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
7	7.G.A	7.G.A.3	3

Which slice will always produce a triangular cross section?

- ☐ A. slicing a right square pyramid parallel to its base
- ☐ B. slicing a right triangular prism perpendicular to its bases
- ☒ C. slicing a right rectangular prism on a diagonal through three of its faces
- ☐ D. slicing a right cylinder through both bases but at an angle that is not perpendicular to the base

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
8	7.SP.C	7.SP.C.6	3

A student uses a 6-sided number cube, labeled 1 through 6, to find the experimental probability of rolling a number greater than 4.

She will roll the number cube 12 times. The results of the first 11 rolls are shown.

1, 6, 5, 2, 4, 3, 5, 2, 1, 2, 6

Which number on the 12th roll would result in an experimental probability that is equal to the theoretical probability of rolling a number greater than 4?

Select the correct answers.

1	2	3	4	5	6
---	---	---	---	---	---

Scoring Rubric	
Score	Description
1	Student response is 1, 2, 3, and 4.
0	The response is incorrect or irrelevant

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
9	7.G.B	7.G.B.5	1

Three lines intersect as shown.

Compare each angle to $\angle AGB$.

Select all the correct answers.

	Complementary	Supplementary	Vertical
$\angle BGD$	☐	☒	☐
$\angle DGE$	☐	☐	☒
$\angle FGA$	☒	☐	☐

Scoring Rubric	
Score	Description
1	The student chooses: $\angle BGD$ - Supplementary $\angle DGE$ - Vertical $\angle FGA$ - Complementary
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
10	7.NS.A	7.NS.A.1	1

What is the value of the expression $-3.2 + \left(-1\frac{3}{10}\right)$?

Enter your answer in the space provided.

$-4\frac{1}{2}$

←
→
↶
↷
✕

1	2	3
4	5	6
7	8	9
	0	$\frac{\Box}{\Box}$
.	-	$\frac{\Box}{\Box}$

Scoring Rubric	
Score	Description
1	Student response is $-4\frac{1}{2}$ or equivalent number.
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
11	7.EE.B	7.EE.B.3	2

A chemistry student is using a dropper to place drops of liquid into a glass container. The container has marks every $\frac{1}{8}$ milliliter (mL), and each drop contains **0.06** mL of liquid. After the student has placed **14** drops into the container, between which two consecutive marks will the level of the liquid in the container be?

Select the two locations on the container to choose the marks.

Scoring Rubric	
Score	Description
1	Student selects the hashmarks at $\frac{6}{8}$ and $\frac{7}{8}$.
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
12	7.RP.A	7.RP.A.1	3

Steven is painting walls that are equal in size. He paints $\frac{1}{6}$ of a wall in $\frac{3}{10}$ of an hour. Using this information, create an equation for the unit rate, r , that represents how much of a wall Steven paints in 1 hour.

Enter your answer in the space provided.

$$r = \frac{1}{6} \div \frac{3}{10}$$

←
→
↶
↷
✕

1	2	3	r					
4	5	6	+	−	·	÷		
7	8	9	<	≤	=	≥	>	
	0	$\frac{\Box}{\Box}$	$\Box^\Box$	()		$\sqrt{\Box}$	$\sqrt[n]{\Box}$	π
.	−	$\frac{\Box}{\Box}$						

Scoring Rubric	
Score	Description
1	Student response is $r = (1/6) \div (3/10)$ or equivalent equation.
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
13	7.SP.B	7.SP.B.4	2

Joseph planted some tomato seeds in containers and some tomato seeds in the ground. He watered them equally. After 2 months, he measured the height, in inches (in), of each plant. The box plots show the results.

Based on the box plots, which statements about the tomato plants are true?

Select all the correct answers.

- ☐ A. More plants were planted in the ground than were planted in containers.
- ☒ B. On average, the plants in the ground grew taller than the plants in the containers.
- ☐ C. The plants in the ground grew more tomatoes than the plants in the containers.
- ☒ D. The heights of the plants in the containers varied less than the heights of the plants in the ground.
- ☐ E. The heights of all the plants in the ground were greater than the heights of all the plants in the containers.

(1 Point) Student selected all of the correct answers.

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
14	7.EE.B	7.EE.B.4	2

Sofia sets up a lemonade stand. She spends \$8.00 on supplies and charges \$0.50 per cup of lemonade she sells. Which inequality represents the number of cups of lemonade, c , that Sofia needs to sell in order to earn more than \$25.00 profit?

Move the correct answer to each box. Not all answers will be used.

0.5c 8 25

Scoring Rubric	
Score	Description
1	Student response is a subtraction sign (–) for Gap 1 and a greater than sign (>) for Gap 2. $0.5c - 8 > 25$ OR Student response is a greater than sign (>) for Gap 1 and an addition sign (+) for Gap 2. $0.5c > 8 + 25$
0	The response is incorrect or irrelevant.

(1 Point)

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
15	7.SP.C	7.SP.C.5	1

Which probabilities best represent events that would **not** be considered either likely or unlikely?

Select all the correct answers.

- ☐ A. 0.23
- ☐ B. 0.93
- ☒ C. 0.47
- ☐ D. 0.87
- ☐ E. 0.17
- ☒ F. 0.53

(1 Point) Student selected all of the correct answers.

Grade 7 Math Sample Test

Item Number	Cluster	Content Standard	DOK
16	7.G.A	7.G.A.2	2

The lengths of two sides of a triangle are 5.2 inches and 3.1 inches. Which lengths, in inches, could be the length of the third side?

Select all the correct answers.

2.1	3.1	4.6	5.2	8.3	9.7
-----	-----	-----	-----	-----	-----

Scoring Rubric	
Score	Description
1	The student selects the hotspots for 3.1, 4.6, and 5.2.
0	The response is incorrect or irrelevant.

22	7.EE.B	7.EE.B.3	2

Susan has two dogs named Murphy and Fido. She feeds each of them the same type of dog food.

- Murphy eats $\frac{2}{3}$ of a can of dog food each day.
- Fido eats $\frac{1}{2}$ of a can of dog food each day.
- Each can of dog food costs \$1.75.
- The pet store is offering a sale that allows customers to buy 1 can of food and get 1 free.

Susan wants to buy a 60-day supply of dog food during the sale. To the nearest cent, what will be the cost of Susan's dog food purchase before tax?

Enter your answer in the space provided.

61.25

1	2	3
4	5	6
7	8	9
	0	$\frac{\Box}{\Box}$
.	-	$\frac{\Box}{\Box}$

Scoring Rubric	
Score	Description
1	Student response is 61.25 or equivalent number. $60 \times \left(\frac{2}{3} + \frac{1}{2} \right) = 70$ $70 \div 2 = 35$ $35 \times 1.75 = 61.25$
0	The response is incorrect or irrelevant.
