

Energy Systems 47.0701.00

Program Description, Industry Credentials, Coherent Sequence, and Teacher Certification Requirements

PROGRAM DESCRIPTION

The **Energy Systems** program prepares individuals to apply technical knowledge and skills to assemble, install, operate, maintain, and repair energy systems, including Solar, Wind, Hydroelectric, and Geothermal energy systems. Includes instruction in installing, maintaining, and testing various types of energy systems equipment.

The **Energy Systems** Career and Technical Education program is delivered as a coherent sequence of courses designed to offer students knowledge and skills that meet the needs of the workplace. The Professional Skills developed by business and industry leaders across Arizona are integrated throughout the program. **Energy Systems** students develop leadership, social, civic, and career skills through participation in the state-recognized Career and Technical Student Organization, SkillsUSA.

The **Energy Systems** instructional program prepares students for entry-level employment, further training, and/or postsecondary education for these and other occupations: Engineer, Engineer Technician, Systems Engineer, Test Engineer, Building Engineer, and Energy Systems Designer.

INDUSTRY CREDENTIALS

Review the [Current CTE Credential List](#) for approved A-F CCR and are CTED eligible for the **Energy Systems** instructional program.
