Self-Efficacy Strategies

*When **learning** gets hard, I can...*

1. Focus on my effort 
2. Try again 
3. Calm myself 
4. Say, "I haven't learned _____ yet" 
5. Exercise my brain 
6. Learn from my mistakes 
7. Remember hard things I've done 
8. Give and accept praise 
9. Accept feedback 
10. Watch and learn from others 

Thank you!
